SEED BUYERS' GUIDE

Eastern Seed Co.

CORPUS CHRISTI
TEXAS

It is a pleasure to us to present this catalogue to our friends and customers, both old and new.

We take this opportunity to thank you for your patronage and wish to assure you that we will take great pleasure in filling your orders with the very best seeds obtainable at all times.

We are some different from most catalogue Seed Houses in that we are located right down among you and have made a special study as to what varieties are best suited to this section of the country.

Another thing we have learned from what parts of America and other Countries the seeds best suited to our conditions are to be had.

We do not attempt to cover the whole of the United States with our catalogues and therefore feel that we are better prepared to supply our friends with seeds suited to their climatic conditions than the dealers who ships all over the entire country and who would naturally not carry different stocks for different sections.

We are always glad to have our friends and customers make reports on crops grown from seed purchased from us, these reports will be of great assistance to us in continuing to improve in the quality of the seeds we supply you.

We are continuing to make tests for Germination on all our seeds and will positively not send out any thing which will not show good Germination by actual tests.

We hope to be favored with your orders in the future and assure you that they will always have our very best attention.

Directions for Ordering

Please be careful to sign your name, Post Office, Rural Route and State on all orders.

Be sure to advise plainly how you want your seeds shipped, whether Parcel Post, Express or Freight. Be sure to give name of your nearest Express Office or if to be forwarded by freight your nearest railroad station.

WRITE PLAINLY

TERMS

Cash with order. Customers please remit Post Office or Express Money Orders. All Payments to be made in Corpus Christi, Texas.

ORDER EARLY

We always try to fill all orders the same day we receive them. Of course we cannot always do this, but if you who are large buyers will anticipate your requirements in advance and book your orders with us in advance it will be a great help to us in supplying you promptly when you are ready to plant.

NON WARRANTY

The seeds which we send out we believe will give entire satisfaction, however seeds of the very best quality fail some times through improper treatment sowing the seed too deep or too shallow or on account of too much or not enough moisture. For these reasons EASTERN SEED CO., and its employees gives no warranty expressed or implied as to description, purity, productiveness or any other matter of any seeds they may send out, and we will not be in any way responsible for the crop.

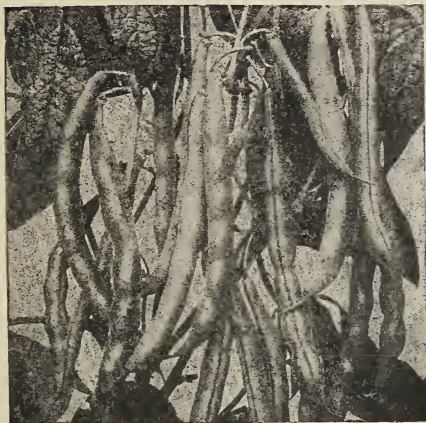

If the customer does not accept the goods on these terms they are to be returned at once and any money paid will be promptly returned.

Asparagus

A permanent bed should be deep rich loamy soil well stirred as these beds are supposed to bear for years, they should be well fertilized. If the soil is stiff clay or heavy black waxy it should be loosened up by adding sand. Rows should be 2 to 4 feet apart and plants about 1 foot apart in rows. Root crowns should be set about 4 to 6 inches below the surface. Asparagus is one of the most delicious and healthful of early spring vegetables and no garden should be without it. A good Asparagus bed once started may be looked upon as permanent investment. The following we consider the best varieties for this section:

BARRS MAMMOTH. Strong 2 year roots	Doz. 40c	100 \$2.00
CONOVERS COLOSSAL. 2 year roots	Doz. 40c	100 \$2.00
ASPARAGUS SEED	pkt. 10c	oz. .25

Eastern Seed Co.'s Green Pod Bush Beans

Giant Stringless Green Pod

GIANT STRINGLESS GREEN POD

This is a splendid variety and is perhaps the most popular of the Green Pod Bush Beans, the pods are oval round, bright green, tender and crisp, usually about 5 to 6 inches long. This variety is especially recommended for market gardeners account its earliness and superior qualities.

Package 10 cents, 1 lb. 40 cents postpaid.

BURPEES STRINGLESS GREEN POD

An absolutely stringless green pod variety of excellent quality round pods, matures very early and very prolific recommended for home gardeners.

Pkt. 10 cents, 1 lb 40 cents postpaid.

EARLY ROUND POD VALETINE

This variety is planted by gardeners and large planters because the plant will stand more adverse weather conditions than most any bush bean, pods are round and of good size and excellent for shipping.

Pkt. 10 cents, 1 lb. 40 cents, postpaid.

BLACK VALENTINE

This is a favorite variety with market gardeners, a great one for long distance shipping. It can be planted earlier than most varieties on account of its hardiness and great resistance to weather conditions.

Pkt. 10 cents, 1 lb. 40 cents postpaid.

TENNESSEE GREEN POD

This variety is very prolific and is one of the earliest varieties. It matures one week to ten days earlier than other varieties, pods are long and flat, bright green color.

Pkt. 10 cents, 1 lb. 35 cents postpaid.

Ask For Prices in Larger Quantities

Wax Pod Beans

PROLIFIC BLACK WAX

This is an improvement on the old German black wax a much larger and better grower and bearer than the old variety. It is perhaps the earliest of the wax varieties produces fine yellow round pods of best quality.

Pkt. 10 cents, 1 lb. 40 cents postpaid.

IMPROVED GOLDEN WAX

An improvement of the old Rust Proof Golden Wax, specially suited for southern planting. Pods are large slightly flattened, bright yellow, very brittle and very nearly stringless when young, the bushes grow very compact and are very prolific. Highly recommended for home gardens.

Pkt. 10 cents, 1lb. 40 cents postpaid.

PENCIL POD BLACK WAX

This is the most handsome of the wax podded varieties. Pods are round straight, bright yellow, tender and stringless. Beans five, to six inches long. If you like a yellow pod bean you should try this one.

Pkt. 10 cents, 1 lb. 40 cents postpaid.

Improved Golden Wax

Pole or Running Beans

KENTUCKY WONDER

The standard of all running or pole varieties, it has proven itself the most prolific and profitable of all pole beans. If green pods are kept picked it will continue bearing until killed by frost. Begins bearing in eight to ten weeks. Don't fail to plant Kentucky Wonders.

Pkt. 10 cents, 1 lb. 40 cents postpaid.

KENTUCKY WONDER WAX

This is practically the same bean as Kentucky Wonder except a wax pod instead of a green. The pods are bright yellow, very meaty and entirely stringless. Highly recommended for late planting.

Pkt. 10 cents, 1 lb. 40 cents postpaid.

WHITE CREASEBACK

This is a splendid pole variety bearing large round green pods, is fine for market, grows well in corn. Also is fine to grow for dry shelled beans for winter use, the beans are plump and pure white.

Pkt. 10c, 1 lb. 40c, postpaid.

Lima Beans

These Lima beans may be used either green or allowed to ripen on the plant and used as dry beans for winter use. Should not be planted so early as other sorts of beans.

SPECKLED BUSH LIMAS

This is the most prolific of all Bush Limas. A great drought resister, beans are brown marked with dark spots.

Pkt. 10 cents, 1 lb. 40 cents postpaid.

SPECKLED POLE LIMAS

We recommend this variety very highly to all southern gardeners. It is one of the best of the pole limas and is splendid both as a dry and green bean.

Pkt. 10 cents, 1 lb. 40 cents postpaid.

SMALL WHITE LIMA OR CAROLINA SIEVA

This is a very small seeded pole lima and is especially adopted for growing in the south. The vines are strong and vigorous growers and stand drouth quite well. It is one of the most popular beans planted.

Pkt. 10 cents, 1 lb. 40 cents postpaid.

FORDHOOK BUSH LIMA

This is an excellent variety and perhaps more generally grown for market than any other sort. The vines are very productive with large pods containing 4 to 5 large oval shaped thick white beans.

Pkt. 10 cents, 1 lb. 40 cents postpaid.

HENDERSON'S BUSH LIMA

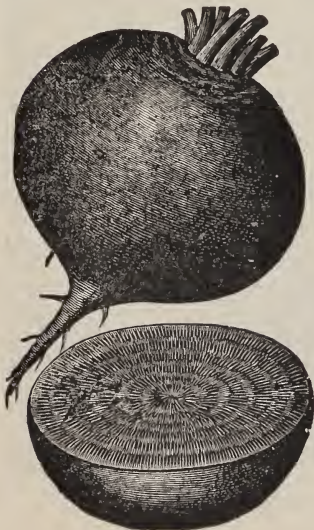

The earliest of all the bush Limas, about two weeks earlier than the running varieties. The plants are very robust, hardy and productive and will continue to set beans until late fall. Beans are pure white and fair size.

Pkt. 10 cents, 1 lb. 40 cents postpaid.

Ask For Prices In Large Quantities

Small White Lima

Eastern Seed Co.'s Selected Garden Beets

Beets are very easily grown and should be planted in every home garden. There are many ways that they can be prepared for table use. Beets do best in rich loamy soil, but do well in most any kind of soil. The following are we think the best varieties.

EARLY SMOOTH BLOOD

Color is deep blood red very sweet and free from strings, grows smooth and uniform in size.

Pkt. 10 cents, 1 oz. 15 cents, 1 lb. 90 cents postpaid.

EARLY ECLIPSE

One of the most popular with market gardeners, also a favorite for home gardens. It is very early, round, smooth and dark red.

Pkt. 10 cents, 1 oz. 15 cents, 1 lb. 90 cents postpaid.

DETROIT DARK RED

Very rich dark color quick to mature, smooth and meat free from strings.

Pkt. 10 cents, 1 oz. 15 cents, 1 lb. 90 cents postpaid.

CROSBY'S EGYPTIAN

An extra early variety for market gardeners, a quick grower with rather flat shaped roots. Tops are very small, and it is ready for market earlier than any other variety.

Pkt. 10 cents, 1 oz. 15 cents, 1 lb. 90 cents, postpaid.

**Swiss Chard**

The Gulf Coast and the Rio Grande Valley is the acknowledged cabbage patch of the south, and my how proud we are and should be of this fact. Just to know that no where on earth can they produce better cabbage than right here at home. Just to think what a large part we are taking toward supplying the old U. S. A. in this staple food item. We can justly boast also of the fact that no where on earth do they produce this great vegetable of a finer quality. Then to our seasons are such that we market this crop at a time when other parts of the country have none to offer thereby giving us the advantage of good prices. In order that we may continue to enjoy the reputation of growing the best cabbage in the world we must continue to plant the best there is to be had in seed.

There is constant improvement being made in the growing of seed and we are watching this

LONG SMOOTH BLOOD

An old time favorite for those who want a long smooth blood beet. Roots grow well down into the soil which enables them to resist drouth, flesh is tender, sweet and splendid for pickling.

Pkt. 10c, 1 oz. 15c, 1 lb. 90c, postpaid.

Ask For Prices in Larger Quantities

Swiss Chard

There is no vegetable coming into favor more than Swiss Chard. The leaves grow very large and upright and as these leaves are cut, more put out from the stem. Leaves are used for greens and salads while the tender stems are cooked like asparagus. No garden should be without this wonderful plant

Pkt. 10 cents, 1 oz. 15 cents, 1 lb. 90 cents postpaid.

STOCK BEETS OR MANGELS
(See Field Seed Section For Prices)

Cabbage in the Gulf Coast Country

work from every angle in order that when some seed grower brings out some thing worth while we in turn may be able to pass it on with our recommendation to our friends the Growers.

The above statement does not mean so much the introduction of entirely new varieties, but more especially the improvement of our standard well known varieties. The cabbage seed which we quote you on the following pages are from the most reputable growers in this country and Europe, they come to us direct from these growers and not from other dealers who might be inclined to unload on us seed of poor quality. We therefore know that we are offering you the very highest quality of seed that are to be had any where and at any price and we will appreciate your orders. If you are a large user of cabbage seed and will send us a list of your probable requirements we will be glad to quote you our very best prices on the quantity you require.

STEINS EARLY FLAT DUTCH

This is an improvement over the old time Early Flat Dutch and is perhaps the most popular Cabbage grown in the South by both the commercial grower and the home gardener. Our stock of this variety is very fine and we know it will please you.

Pkt. 10c, oz. 30c
¼ lb. 1 lb. \$2.25
postpaid.

Ask for prices in larger quantities.

**Stein's Early Flat Dutch****EARLY JERSEY WAKEFIELD**

This is considered one of the finest of the early cone shaped head varieties and it is very popular where ever it is grown.

Pkt. 10c, oz. 30c, ¼ lb. 75c, 1 lb. \$2.25 postpaid.

Ask For Prices in Larger Quantities.

CHARLESTON WAKEFIELD

This is a large heading variety and comes on about one week to 10 days later than early Jersey Wakefield. It is an excellent header and deserves a place in every garden.

Pkt. 10c, oz. 30c, ¼ lb. 75c, 1 lb. \$2.25 postpaid.

Ask For Prices in Larger Quantities.

ALL SEASONS

Heads very deep and is a wonderful keeper, medium early with fine large heads of excellent quality, plants are very vigorous with large smooth leaves and noted for its remarkable resistance to hot sun and dry weather. One of the best varieties for general cultivation.

Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 75c, 1 lb. \$2.25 postpaid.

Ask For Prices in Larger Quantities.

SUREHEAD

Produces large flat heads of the flat Dutch type largely grown by the market gardeners and is considered one of the most reliable of the old standard varieties.

Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 75c, 1 lb. \$2.25 postpaid.

Ask For Prices in Larger Quantities.

Copenhagen Market

SUCCESSION

This has long been a favorite with southern market gardeners and shippers. It is a good second early kind and is a splendid general purpose cabbage for both spring and fall planting, medium to large sized, solid and reliable header.

Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 75c, 1 lb. \$2.25 postpaid.

Ask For Prices in Larger Quantities.

GLORY OF ENKHUIZEN

This second early is very sure heading and of excellent quality, the heads are very nearly round, and very solid and large for such an early sort. We believe this is one of the coming popular varieties.

Pk. 10c, oz. 30c, $\frac{1}{4}$ lb. 75c, 1 lb. \$3.00 postpaid.

COPENHAGEN MARKET

This is a round head cabbage about as early as Jersey Wakefield, besides being early it grows to large size. It is fine grained, tender and has heart of pure white and of fine quality.

Pkt. 10c, 1 oz. 30c, $\frac{1}{4}$ lb. 75c, 1 lb. \$2.25 postpaid.

CHINESE CABBAGE (Pe-sai)

Chinese cabbage is very easily grown and does well in all parts of this country. It is grown as a late variety, has a very mild flavor and may be served raw or cooked, boiled seasoned with butter it is especially fine.

Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 75c, 1 lb. \$3.00 postpaid.

Ask for Prices in Larger Quantities.

Collards

An old time stand by for winter greens, used all over the south. It is not in its best condition for table use until after frost.

GEORGIA OR SOUTHERN

Is the standard variety of all Collards, sow the seed same as cabbage and transplant or thin out in rows to one foot or eighteen inches.

Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 35c 1 lb. \$1.00 postpaid.

Eastern Seed Co.'s Selected Carrots**OXHEART**

This is a fine variety for growing on soils too hard and stiff for the larger and long growing kind. The roots are short and thick with a very small tap root. Flesh is of bright orange color, fine grained and sweet flavor.

Pkt. 15 cents, oz. 25 cents, $\frac{1}{4}$ lb. 35c, 1 lb. \$1.10 postpaid.

DANVERS HALF LONG

A rich orange red variety, very smooth and handsome. Produces very large crops. An excellent market variety. Tops are medium size and the roots taper to a blunt point. Flesh is sweet, crisp and tender. It will produce more bulk per acre than the larger field varieties, for this reason it is more largely grown than any variety.

Pkt. 10 c, oz. 25c, $\frac{1}{4}$ lb. 35c, 1 lb. \$1.10 postpaid.

LONG ORANGE

An old standard long variety suitable for table use, also stock feeding.

Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 35c, 1 lb. \$1.10 postpaid.

Oxheart Carrot

Cauliflower

Cauliflower, which is one of our most delicious vegetables, is grown by few other than professional gardeners because of the idea that it is difficult to grow. Anyone can grow cauliflower almost as easily as cabbage and where ever cabbage can be grown. All that is necessary is rich soil and plenty of water and keep bugs and worms off the plants. After the heads begin to form draw the leaves over heads and tie them to protect from sun which will bleach the heads. Heads should be cut for use as soon as hard.

EARLY SNOWBALL

This is undoubtedly the best ever introduced for planting in this country. Heads are beautiful white and of the finest flavor.
Pkt. 20c, oz. \$2.00, postpaid.

Celery

This is perhaps the easiest variety to grow as it is fairly hardy and being white it is easy to bleach. Forms a medium size bunch fairly tall and early.

WHITE PLUME

Celery seed is slow to germinate and plenty of time must be given. Sow thinly and cover lightly and keep constantly moist, but not too wet. When seedling plants are about three inches high clip tops to make them stocky. Pkt. 20c, oz. 40c, postpaid. Ask for prices in larger quantities.

Garden and Sweet Corn

(Ask for Prices in Large Quantities)

ADAMS EARLY

This is an extra early sweet corn, makes a little larger ear than the wrinkled sort. A good variety for home garden and market gardeners.
Pkt. 10c, 1 lb. 30c, postpaid.

GOLDEN BANTAM

Golden Bantam is the sweetest of all garden corns, the ears are small. It is very hardy and grows beautifully well filled, golden ears which cannot be beat for table use.

Pkt. 10c, 1 lb. 30c, postpaid.

STOWELL'S EVERGREEN

The largest of the sweet corns and probably one of the surest producers.

Pkt. 10c, 1 lb. 30c, postpaid.

COUNTRY GENTLEMAN

This variety is very sweet. Has small cob and deep shoe peg kernels. Considered by some to be the best of the garden corns.

Pkt. 10c, 1 lb. 30c, postpaid.

Popcorn

We handle a good grade of popcorn, which is desirable for planting as well as popping it takes about 12 lbs. to plant an acre.

WHITE RICE

This variety produces short ears with long pointed kernels and is an old time favorite.

Per lb. 35 cents, postpaid.

Ask for Prices in Large Quantities.

QUEEN GOLDEN

This is a yellow grained variety and is an excellent popper.

Per lb. 35 cents, postpaid.

Ask for Prices in Larger Quantities.

Cucumber

Our stock of cucumbers is from the best growers in the country and you may expect them to be of a good type and fine fruiting habit.

Ask for Prices in Large Quantities.

SELECT EARLY FORTUNE

A very fine early variety. Very productive and of the white spine strain, but a big improvement over the old white spine.

This is the variety planted by the large commercial shippers in our territory.

Pkt. 10c, oz. 20c, lb. \$1.25, postpaid.

CHICAGO PICKLING

Is a small variety used largely for pickling purposes. Very prolific.

Pkt. 10c, oz. 20c, lb. \$1.25, postpaid.

LONG GREEN

One of the earliest long green varieties, fruits 8 to 10 inches long, of a rich dark green color, very fine for shipping, also good for pickling when young.

Pkt. 10c, oz. 20c, 1 lb. \$1.25, postpaid.

Ask for prices in large quantities.

Early Fortune

Egg Plant

BLACK BEAUTY

This is a fine early variety which produces large, heavy meated, luscious, purple fruits of excellent quality.

Pkt. 10c; oz 45c; ¼lb. \$1.50, postpaid.

NEW YORK IMPROVED PURPLE SPINELESS

The leading market variety. Undoubtedly the best for size, quality and productiveness.

Pkt. 10c; oz 45c; ¼lb. \$1.50, postpaid.

Herbs

ANISE

Used for a cordial and for garnishing and flavoring. Seeds have an agreeable and aromatic flavor.

Pkt. 10c.

BASIL SWEET

The leaves are used for flavoring soups and highly seasoned dishes.

Pkt. 10c.

CARAWAY

Grown for the seed which are used extensively for flavoring of bread, pastry, etc.

Pkt. 10c.

CATNIP

The leaves are used for seasoning, also make an excellent bee pasture.

Pkt. 10c.

CHERVIL

Used in soups; also salads.

Pkt. 10c.

CORIANDER

The seeds are used in the manufacture of confectionery.

Pkt. 10c.

DILL

The seeds have an aromatic odor and warm, pungent taste. They are used as a condiment and for pickling cucumbers.

Pkt. 10c.

FENNEL SWEET

The boiled leaves are used in sauces.

Pkt. 10c.

MARJORAM SWEET

The leaves and the ends of shoots are used for seasoning in the summer and are also dried for winter use.

Pkt. 10c.

SAGE

The most extensively used of all herbs as a seasoning for dressing. Pkt. 10c.

Kale

Kale is used for greens, is a large producer. Plant in rows and cultivate as cabbage.

DWARF GREEN CURLED

It is the most tender and delicate of the cabbage family. Improved by frost, the leaves look like an immense feather which is curled at the edges.

Pkt. 10c, oz. 15c, ¼lb. 40c postpaid.

THOUSAND HEADED

This is a tall variety with smooth leaf, especially fine for chicken feed and stock. Furnishes lots of green feed.

Pkt. 10c, oz. 15c, ¼lb. 25c, postpaid.

KOHL RABI

Early White Vienna:

Bulbs grow to nice large size when ready for use. Blue whitish color and delicate cabbage-like flavor.

Pkt. 10c, oz. 25c, ¼lb. 85c, postpaid.

New York Mammoth

Lettuce

NEW YORK MAMMOTH: or WONDERFUL

The finest heading variety which we know and is grown by leading market gardeners all over the country.

Pkt. 10c, oz. 25c, ¼ lb. 75c, 1 lb. \$3.25, postpaid.

BIG BOSTON

A favorite among the old standard varieties of head lettuce. Producing large solid heads, almost as large as New York Mammoth, and of fine quality.

Pkt. 10c, oz. 25c, ¼ lb. 60c, 1 lb. \$2.25, postpaid.

BLACK SEEDED SIMPSON

A bunching variety which forms no definite head. It grows a large mass of fine crisp leaves of a light green color.

Pkt. 10c, oz. 15c, ¼ lb. 60c, 1 lb. \$2.25, postpaid.

EARLY CURLED SIMPSON

A loose bunching sort, light green in color, very tender and crisp. A great favorite.

Pkt. 10c, oz. 15c, ¼ lb. 60c, 1 lb. \$2.25, postpaid.

HANSON

This is a fine kind for late planting as it stands the warm weather and does not get tough and bitter like some varieties.

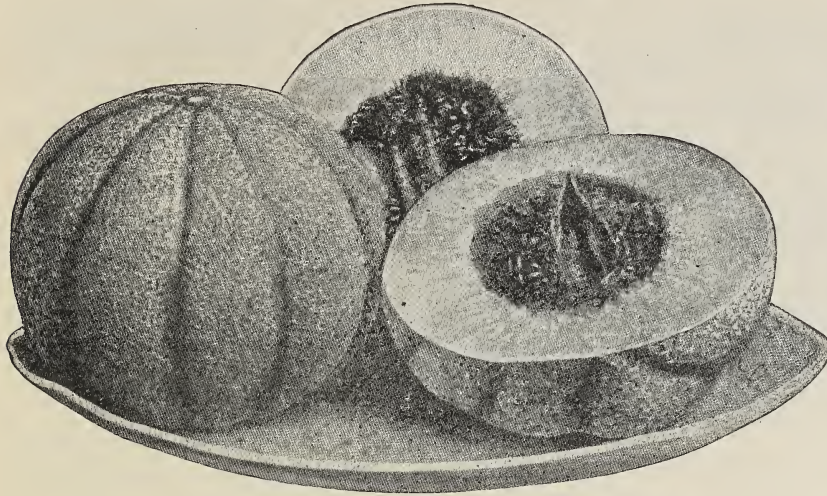

Pkt. 10c, oz. 15c, ¼ lb. 60c, 1 lb. \$2.25, postpaid.

Kale

Muskmelons and Cantaloupes

This is another crop where the planter should exercise extreme care in buying good seed, for without good seed you have a poor chance to grow a good grade of melons and with poor melons you stand a slim chance to make money. Our seeds are all from reputable growers. Only those who specialize in growing high class melon seed. We therefore, do not hesitate to recommend them.

Rocky Ford

ROCKY FORD

Our seed of this variety is gathered from selected melons. It is unequalled in quality. The thick, green, sweet flesh is of fine quality, with small golden yellow cavity and fine flavor. Outer skin of melon is heavily netted. Melons average an even medium size.

Pkt. 10c, oz. 15c, $\frac{1}{4}$ lb. 35c, 1 lb. \$1.25, postpaid.

Ask for prices in larger quantities.

POLLOCK 25

The Pollock 25 has flesh of a rich salmon tint, part pink and part green. The flavor is very rich and nutty. The skin is heavily netted and all told it is a splendid melon.

Pkt. 10c, oz. 15c, $\frac{1}{4}$ lb. 40c, \$1.35, postpaid.

OUR SPECIAL CANTALOUPE

This is a new type developed from Eden Gem, recognized as the best Rocky Ford shipping melon bringing the highest prices in every market. Fruits very uniform in size, nearly round and densely covered with a hard, gray netting. The new Special melon will weigh more to the crate than other Rocky Ford types, have the thickest flesh and smallest seed cells. Quality is the very best.

Price per pkt. 10 cents, oz. 20c, $\frac{1}{4}$ lb. 40c, 1 lb. \$1.50 postpaid.

IMPROVED BANANA MUSKMELON

This melon grows from 1 to 2 feet long and ripens in about 85 days. It is very prolific and of splendid flavor. One melon is enough for an entire family.

Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 40c, 1 lb. \$1.35, postpaid.

CANNON BALL

Perfectly round, heavily netted, flesh green, very thick and a good flavor.

Pkt. 10c, oz. 15c, $\frac{1}{4}$ lb. 35c, 1 lb. \$1.25, postpaid.

HACKENSACK

Very large, deep ribbed, heavily netted. Flesh very thick and of excellent quality. One of the best and most prolific muskmelons.

Pkt. 10c, oz. 15c, $\frac{1}{4}$ lb. 35c, 1 lb. \$1.25, postpaid.

ACME or BALTIMORE

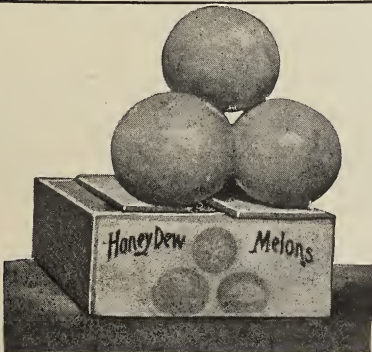

Oval shaped, well ribbed, heavily netted and of a very good quality and flavor. This variety is very productive; a sure cropper and will prove very satisfactory.

Pkt. 10c, oz. 15c, $\frac{1}{4}$ lb. 35c, 1 lb. \$1.25, postpaid.

EDEN GEM

This is sometimes called Gold lined Rocky Ford and is a standard shipping melon. Fruits are round, covered with netting and without ribs. The flesh is green tinted with yellow at center. Excellent quality.

Pkt. 10c, oz. 15c, $\frac{1}{4}$ lb. 35c, 1 lb. \$1.25, postpaid.

Honey Dew

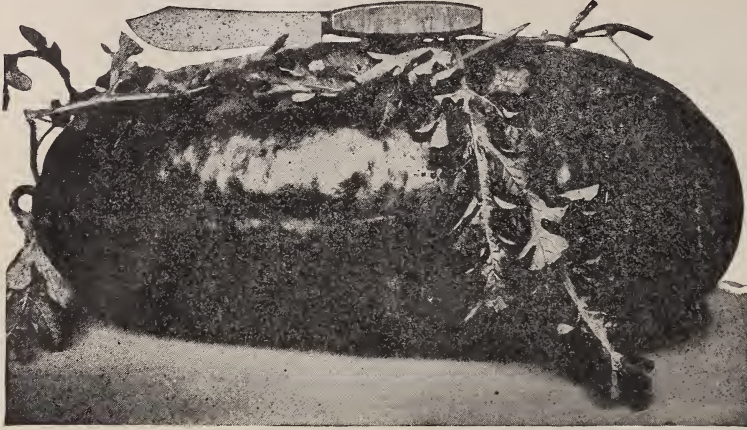

HONEY DEW

This new melon is a wonder and is gaining great favor all over the country. The flesh is an emerald green, very thick and can be eaten clean to the rind. It is of medium size, weight from 4 to 6 pounds, being a splendid keeper, makes it especially fine for large growers, as they can be kept until winter for marketing when prices are high. Honey Dew is a cross between Rocky Ford and a South African melon resembling the Casaba, but surpassing it in quality.

Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 50c, 1 lb. \$1.50 postpaid.

Our Selected Watermelon Seed

Our watermelon seed is all Southern Grown and saved from selected melons which means that we can assure you the best to be had in watermelon seed.

Tom Watson

TOM WATSON

Our Tom Watson seed is a selected strain and we are sure will please you. The fruit of this fine old variety is very large, many melons weighing 50 to 60 pounds and measuring 18 to 24 inches in length. The rind is very thin but tough, the skin is a dark, mottled green with flesh of brilliant scarlet and a very large heart. The flavor is delicious. It is an ideal melon for handling and shipping. Its seeds are brown with white tips somewhat uneven in size and color.

Pkt. 10c, oz. 15c, ¼ lb. 30c, 1 lb. \$1.00 postpaid.

Ask for prices in larger quantities.

GOLDEN HONEY

This fine melon was introduced into Texas several years ago. It is of oblong shape, medium size. Flesh is beautiful glistening Amber shade of yellow. Very tender, sweet and of delicious flavor. It has no core or stringy section and is preferred by some to the red meated varieties. We recommend this as a good variety for home use.

Pkt. 10c, oz. 15c, ¼ lb. 30c, 1 lb. \$1.00 postpaid.

Ask for prices in larger quantities.

GEORGIA RATTLESNAKE

This old standard variety is too well known to need description. Our stock of seed is from a selected strain and is sure to please you.

Pkt. 10c, oz. 15c, ¼ lb. 30c, 1 lb. \$1.00 postpaid.

HALBERT HONEY

Melons average 18 to 24 inches long and are bluntly rounded at each end. The skin is a dark glossy green. The flesh is a beautiful crimson scarlet, the rich color and luscious quality extending well to the rind. One of the best watermelons of the day and perhaps the finest of all for home gardens and local markets. Does well where ever melons grow.

Pkt. 10c, oz. 15c, ¼ lb. 30c, 1 lb. \$1.00, postpaid.

Ask for prices in larger quantities.

KLECKLEY OR GEORGIA SWEETS

The introducer claims this to be the sweetest of all melons. It has certainly become very popular because of its wonderful flavor and crispness. On account of its tenderness it is not recommended for shipping but for home use and nearby markets it has no superior, medium size oval shape, average length 18 to 20 inches, color mottled green flesh bright red, seeds are white and grow close to the rind outside the big bright red heart.

Pkt. 10c, oz. 15 c, ¼ lb. 30c, 1 lb. \$1.00, postpaid.

Ask for prices in larger quantities.

IRISH GRAY

This is a very popular long variety, the skin is a rich green gray, flesh very firm crisp and sweet. It is a fine shipping variety and in the past few years has become one of the favorites.

Pkt. 10c, oz. 15 c, ¼ lb. 30c, 1 lb. \$1.00, postpaid.

Ask for prices in larger quantities.

ALABAMA SWEET

This is a good shipping melon. They are large and of oblong shape and have a firm dark green slightly striped rind. The flesh is bright red in color and of splendid quality. Seeds white.

Pkt. 10c, oz. 15c, ¼ lb. 30c, 1 lb. \$1.00, postpaid.

Mustard

SOUTHERN GIANT CURLED

This is a large variety forming a great mass of beautiful leaves ruffled and finely curled on the edges. This variety is used largely by market gardeners.

Pkt. 10c, oz. 15 c, ¼ lb. 30c, 1 lb. \$1.00, postpaid.

CHINESE GIANT

A very hardy smooth broad leaf variety, leaves are thin and deeply shaded with broad white midrib.

Pkt. 10c, oz. 15 c, ¼ lb. 30c, 1 lb. \$1.00, postpaid.

OSTRICH PLUME

Dark green leaves more curled on the edges than other varieties.

Pkt. 10c, oz. 15 c, ¼ lb. 30c, 1 lb. \$1.00, postpaid.

Ask for prices on larger quantities.

Citron

COLORADO PRESERVING CITRON

Excellent for making preserves, melons grow to good size often weighing twenty pounds or more. They are also used for stock feeding.

Pkt. 10c, oz. 15c, ¼ lb. 25c, 1lb. \$1.00, postpaid.

Okra

WHITE VELVET

Pods of this variety are large and white very smooth an abundant bearer. This beautiful sort was originated in Georgia and has become very popular with all who have grown it.

Pkt. 10c, ¼ lb. 20c, 1 lb. 65c, postpaid.

PERKINS MAMMOTH LONG POD

This is a very prolific variety, pods rich green in color and of unusual length, very slim and does not get hard so quickly as other kinds.

Pkt. 10c, ¼ lb. 20c, 1 lb. 75c, postpaid.

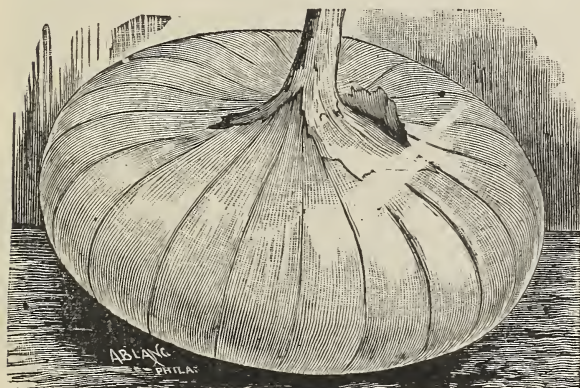

Onions

Onions are one of the staple crops of Texas, especially the south west. Of these the Bermuda and Crystal Wax Bermuda are the most popular varieties.

Thousands of cars of these fine onions are grown and shipped to the Northern and Eastern markets each year. Bermuda onion seed are imported to this country from the far away Canary Islands and we contract direct with the most reputable growers each year for our seed. Our Mr. Clark made a trip to the Canary Islands recently to get in touch with the growers of these onions, his purpose in making this trip was to see just what was being done and to find out to his own satisfaction who was the best and most responsible grower to do business with. He made contracts with the best growers he could find and our entire stock of Bermuda Onion Seed comes from this one man's plantation and we do not hesitate to tell you our seed are just as fine and true to type as it is possible to buy any where on earth.

And as we are among the largest Importers of Bermuda Onion Seed in this country it enables us to sell you as cheaply as good fresh seed can be sold.

If you are a large grower and will advise us about how many seed you are going to use we will be glad to quote you our very best prices on the amount you will need.

YELLOW BERMUDA

This is sometimes called White Bermuda. It is a light straw color and is used more than any other variety. It is a thin, flat onion of medium size and very sweet. Many people eat them like an apple.

Pkt. 10c, oz. 30c, ¼ lb. \$1.00, 1 lb. \$3.50, postpaid.

Ask for prices in large quantities.

CRYSTAL WAX BERMUDA

This is the pure white Bermuda Onion and on account of its color has become very popular. Like the yellow Bermuda it is a thin, flat onion of medium size and the same sweet, mild flavor. One of the favorites with the market growers.

Pkt. 10c, oz. 35c, ¼ lb. \$1.25, 1 lb. \$4.50, postpaid.

Ask for prices in large quantities.

YELLOW PRIZETAKER

This is a favorite variety in Central and North Texas. It is a bright straw color and mild flavor, grows to enormous size and is a splendid keeper.

Pkt. 10c, oz. 20c, ¼ lb. 60c, 1 lb. \$2.00 postpaid.

Ask for prices in large quantities.

LARGE RED WETHERSFIELD

This is a standard variety planted all over America. Large size, very productive, mild of flavor and a good keeper. Color is deep purplish red with white flesh nearly as mild as some of the light skinned variety.

Pkt. 10c, oz. 20c, ¼ lb. 60c, 1 lb. \$2.00 postpaid.

Onion Sets

WHITE MULTIPLIER

This onion grows in clusters. It is a white skinned onion of mild flavor, hardy, early and a good cropper.

Per lb. 25 cents, not postpaid.

RED-YELLOW-WHITE-25c lb., not postpaid.

We can also furnish White and Yellow Bermuda Onion Sets in the fall. (Write for prices.)

Parsley

Parsley is used as a garnishment for meats and salads, also adds a pleasant flavor to soups. Soak the seeds for several hours in warm water before planting. Plant in rows or beds, thin out to about eight inches.

DOUBLE CURLED—This is the standard variety, has densely curled leaves of splendid quality.

Pkt. 10c, oz. 20c, ¼ lb. 40c, postpaid.

Chinese Giant

Selected Peppers

There is an increasing market for both sweet and hot peppers. They are popular in nearly all home gardens. Following are the varieties which are in general use:

CHINESE GIANT

One of the largest of the sweet peppers. The flesh is thick, tender, mild and sweet and is fine for salads or stuffed. They are splendid when sliced and served like tomatoes. Serve when green.

Pkt. 10c, oz. 50c, 1 lb. \$5.50, postpaid.

RUBY KING

This is a very prolific variety. When ripe the pods are bright red, often $2\frac{1}{2}$ to $3\frac{1}{2}$ inches in diameter. Unsurpassed for slicing, stuffing or Mangoes.

Pkt. 10c, oz. 40c, 1 lb. \$4.00, postpaid.

BELL OR BULL NOSE

A large early variety, mild in flavor and desirable for slicing, pickling and other uses which green peppers are used for.

Pkt. 10c, oz. 30c, 1 lb. \$3.50, postpaid.

LONG RED CAYENNE

A small, long, bright red variety, very productive and very hot. Fine for pepper sauce and seasoning.

Pkt. 10c, oz. 40c, postpaid.

TOBASCO

Tall bush like growth, producing great numbers of small, slender very hot fiery fruits, about one inch long and bright scarlet. Also fine for pepper sauce and seasoning.

Pkt. 10c, oz. 50c, postpaid.

Parsnips

The value of parsnips as a table vegetable is well known. It is also a fine crop to plant as stock feed.

LARGE SUGAR OR HOLLOW CROWN

This is a favorite variety. The young tender roots are fine for table use and when they are grown they make valuable stock feed.

Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 35c, 1 lb. \$1.00, postpaid.

Garden Peas

FIRST AND BEST

Very early and very prolific. It is equal to any of the extra early sorts. It does not mature peas as evenly as some varieties and is therefore recommended for home use. Grows about two feet high.

Pkt. 10c, 1 lb. 35c, postpaid.

AMEER

This is the large podded Alaska. It is an early, large smooth, blue pea, with broad dark green pods. Very popular with gardeners on account of its hardiness.

Pkt. 10c, 1 lb. 35c, postpaid.

ALASKA PEAS

Frist And Best

Green Striped Cushaw

TENNESSEE SWEET POTATO

Of medium size very nearly bell shaped with neck slightly crooked; skin creamy white, sometimes slightly green.

Pkt. 10c, oz. 20c, 1 lb. \$1.00, postpaid.

THOMAS LAXTON

This is the favorite large pod variety with market gardeners, and is probably grown more than any other variety by commercial gardeners. Vines are about $2\frac{1}{2}$ feet high and bear numerous well filled pods, measuring $2\frac{1}{2}$ to $3\frac{1}{2}$ inches, well filled of excellent quality. Noted for its large production.

Pkt. 10c, 1 lb. 35c, postpaid.

AMERICAN WONDERS

This is an old standard dwarf variety, extra early, and very sweet for this reason an excellent sort for home gardening.

Pkt. 10c, 1 lb. 35c, postpaid.

Ask for prices in large quantities.

Pumpkins

KENTUCKY FIELD

Largely grown in the South for canning. Fruits are large, round, and flattened at either end. It is cream buff in color, with yellow flesh which is a deep yellow and very rich.

Pkt. 10c, oz. 20c, 1 lb. \$1.00, postpaid.

GREEN STRIPED CASHAW

Crooked neck type with mottled green and white striped skin. Fruits weigh up to 14 lbs. or 15 lbs. Flesh is yellow, very solid and fine grained. Excellent for baking, also for pies.

Pkt. 10c, oz. 20c, 1 lb. \$1.50, postpaid.

JAPANESE PIE

Shaped very much like Cashaw and grows much larger. Skin is deep green with dark stripes. Flesh is deep yellow and of best quality. One of the finest pumpkins grown.

Pkt. 10c, oz. 20c, 1 lb. \$1.50, postpaid.

Seed Potatoes

This is one of the most profitable crops grown in the early spring. Large quantities are grown in Texas each Spring and shipped to the North and Eastern markets where they command fancy prices on account of their earliness. Potatoes do well in practically all sections of the state and most all soils.

MAINE GROWN BLISS TRIUMPHS**MAINE GROWN IRISH COBBLERS**

These two well know varieties need no introduction. It is enough for us to tell you that they come from a reputable grower and are selected stock and as free from scab as we are able to get. Ask for prices.

Tested Radish Seed

Here is another fine vegetable which you can have practically all the year round, there are many varieties and where you have the rainfall or are prepared to water there is a variety which will mature good crisp roots for most any month in the year. Radishes do best in rich loamy soil where they can be grown quickly but can be grown in most any good soil.

Below we list some of the best varieties if you do not find your favorite in this list ask for it as we usually have some sorts which we do not list.

WHITE TIPPED SCARLET RADISH

EARLY SCARLET GLOBE

Those who like the little red radishes that come so early will be pleased with this sort. The radishes grow globular in shape and are a brilliant cardinal color. It stands considerable hot weather therefore is a quick forcer, the quality is fine, a splendid sort for home gardens and for market.

Pkt. 10c, oz. 15c, 1/4 lb. 30c, 1 lb. \$1.00, postpaid.

Ask for prices in larger quantities.

CINCINNATI MARKET

This is a strain of long scarlet short top, but grows to some larger size fully as early, and darker color than long scarlet. A very popular variety and used largely by market gardeners for shipping to northern markets.

Pkt. 10c, oz. 15c, 1/4 lb. 30c, 1 lb. 85c, postpaid.

FRENCH BREAKFAST

This is an old standard variety of oblong or olive shape, color bright scarlet shading to white at tip, has always been a favorite for home gardens.

Pkt. 10c, oz. 15c, 1/4 lb. 30c, 1 lb. 85c, postpaid.

EARLY SCARLET TURNIP WHITE TIP

Is a beautiful early round sort, bright scarlet at the top shading to white at the tip of medium size, crisp and tender, good for first early planting, not unusual to have ready for eating in 18 to 20 days from planting.

Pkt. 10c, oz. 15c, 1/4 lb. 30c, 1 lb. 85c, postpaid.

EARLY SCARLET TURNIP

This is the earliest variety that we know of, bright red in color, crisp and tender, a fine sort for early out door planting.

Pkt. 10c, oz. 15c, 1/4 lb. 30c, 1 lb. 85c, postpaid.

Ask for prices in large quantities.

CHINA ROSE WINTER

This is a handsome winter variety. Skin is deep rose red color, flesh pure white, solid, crisp and fine flavor. Keeps well into the spring. Very large, fine shaped roots, maturing in about 40 days.

Pkt. 10c, oz. 15c, 1/4 lb. 30c, 1 lb. 85c, postpaid.

LONG SCARLET SHORT TOP

This is the most popular of the long radishes. It is bright scarlet in color. Roots are rather long and tapering to the tip. The flesh is crisp, tender and mild flavor. Ready for use in about 25 days from planting. We recommend this variety as being one of the very best for home use and market gardeners.

Pkt. 10c, oz. 15c, 1/4 lb. 30c, 1 lb. 85c, postpaid.

ROUND SCARLET CHINA

This is a round scarlet radish of good size. May be grown for early summer or winter use and can be used at all stages of growth. Ready for use in about 50 days but keeps nearly as well as China Rose and other winter varieties.

Pkt. 10c, oz. 15c, 1/4 lb. 50c, 1 lb. \$1.25, postpaid.

WHITE ICICLE

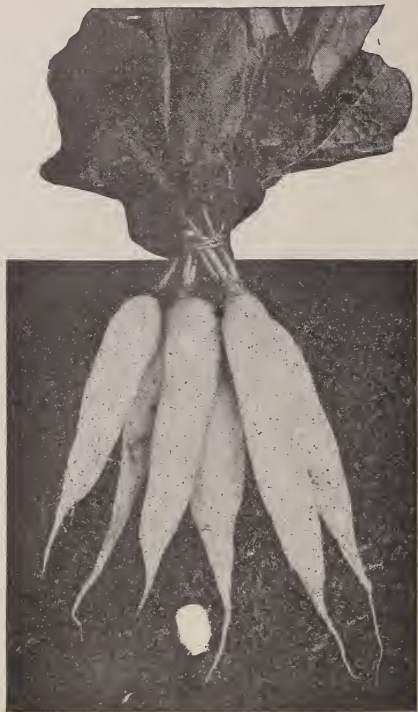

This makes radishes four or five inches long, $\frac{1}{2}$ to $\frac{3}{4}$ inches in diameter. Pure white, crisp, tender and of fine flavor. Matures quicker than other long sorts.

Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 30c, 1 lb. 85c, postpaid.

Tomato Seed

Tomatoes are one of the staple market and garden crops. Texas has the reputation of producing the finest quality tomatoes going to the Northern and Eastern markets, and our growers should be proud of the fact and put forth their best efforts to keep the reputation of producing the best.

There is no better way of doing this than to use care in the selection of the seed they plant. Eastern Seed Co. has always enjoyed the reputation of handling the very best to be had in seed, and this is especially true of tomato seeds, since they, along with onions are our big money crops, and we hope to continue to enjoy the nice business that has been given to us in the past. Our tomato seed are all tested for germination and you can buy them with the assurance that they are good, live seed of the best selected strains.

White Icicle

JUNE PINK

This is a popular, purplish, pink tomato of medium size and good uniform shape, being very similar to the well known Earliana, except in color. It is of splendid flavor and is very prolific and a very good shipper.

Pkt. 10c, oz. 35c, $\frac{1}{4}$ lb. \$1.20, 1 lb. \$4.00, postpaid.

EARLIANA

This is an early red tomato of medium to large size, nearly globe shaped, but rather uneven in size. The vines are small and solid. This is a splendid variety for home or market garden.

Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. \$1.00, 1 lb. \$3.50, postpaid.

June Pink Tomato

DWARF STONE

This is claimed to be the largest dwarf tomato known, almost double the size of the Dwarf Champion and similar in habits and growth. A very popular variety with market gardeners and home growers.

Pkt. 10c, oz. 35c, $\frac{1}{4}$ lb. \$1.15, 1 lb. \$3.75, postpaid.

DWARF CHAMPION

This is an old standard variety, distinct in its foliage and habits of growth, being very compact

and upright. Fruits smooth and very early. Color purplish red. A good one for home gardens.

Pkt. 10c, oz. 35c, $\frac{1}{4}$ lb. \$1.15, 1 lb. \$3.75, postpaid.

McGEE

Originated in Texas and claimed to be the surest bearer of all. It has been known to make a splendid yield where all other sorts failed completely. Sometimes called Blackland tomato.

Pkt. 10c, oz. 35c, $\frac{1}{4}$ lb. \$1.15, 1 lb. \$3.75, postpaid.

Spinach

Should be grown in every garden. If our people would eat more spinach and other greens we would have less sickness, and especially less stomach troubles. Spinach has become one of our commercial crops in the last few years. Our spinach seed comes from the best growers in this country and Holland. The germination is good and we urge you to plant spinach for your home garden if nothing more.

BLOOMSDALE OR SAVOY LEAVED

This is considered the best variety for our climate. It has fine large leaves which are curled and crinkled like Savoy Cabbage. Very hardy and productive.

Pkt. 10c, oz. 15c, 1 lb. 50c, postpaid.

IMPROVED THICK LEAVED VIROFLAY

Very large thick dark leaves. This is a fine variety for market gardens, planted in fall or spring.

Pkt. 10c, oz. 10c, 1 lb. 50c, postpaid.

SALSIFY OR OYSTER PLANT MAMMOTH SANWICH ISLAND

A large and superior variety, delicately flavored.
Pkt. 10c, oz. 30c, 1 lb. \$3.00, postpaid.

Squash

Squash should not be planted until danger of frost is over. They do well in most any soil, but best is rich loam.

EARLY WHITE BUSH

This is a standard summer variety good for home and market. The skin is white and tender when ready for use. It is of dwarf habit, quite hardy and very productive. Matures in about forty-five days.

Pkt. 10c, oz. 15c, ¼ lb. 40c, 1 lb. \$1.25, postpaid.

Early White Bush

YELLOW SUMMER CROOK NECK

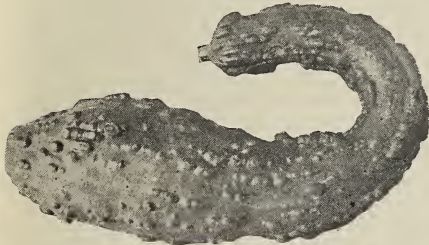

Another standard summer variety. It is of dwarf bushy habit, very productive, maturing its squash in 45 to 50 days. Skin and flesh are deep yellow and of splendid quantity.

Pkt. 10c, oz. 15c, ¼ lb. 40c, 1 lb. \$1.25, postpaid.

WARTED HUBBARD

This is a distinct strain of the famous Hubbard and is ideal squash for home and market. The shell is deeply warted and of dark green color. The flesh dry and sweet in flavor. It grows to large size and is noted for its keeping qualities.

Pkt. 10c, oz. 15c, ¼ lb. 40c, 1 lb. \$1.25, postpaid.

Yellow Summer Crookneck

Turnips

This is one of our most desirable vegetables and can be stored in pits or cellars and kept for a long time. Turnips should be planted in late summer and fall and in the Gulf Coast country plant them through the winter.

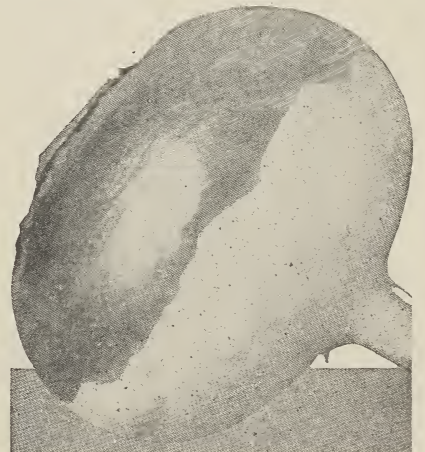

PURPLE TOP WHITE GLOBE

This excellent variety for the table is globe shaped, of good size and very attractive appearance. The roots are large, purple or dark red above the ground and snow white below. The flesh is pure white, fine grained and very tender. When in the best condition for use the roots are about 3 inches in diameter, but will grow much larger if left in the ground. This variety keeps well for an early sort and is one of the best to grow for market.

Pkt. 10c, ¼ lb. 25c, 1 lb. 85c, postpaid.

PURPLE TOP STRAP LEAF

A flat white turnip with purple top, very fine grained and exceedingly tender. It is claimed by all gardeners to be one of the best for early spring growing, on account of its early maturing qualities. Pkt. 10c, ¼ lb. 25c, 1 lb. 75c, postpaid.

Purple Top White Globe

Turnips

AMBER GLOBE

One of the most desirable of the yellow varieties for your main fall crop. It is a rich amber color of globe shape. Very sweet, tender and crisp, which goes to make it a splendid all purpose turnip.

Pkt. 10c, oz. 15c, $\frac{1}{4}$ lb. 25c, 1 lb. 85c, postpaid.

SEVEN TOP

The name describes this turnip. It has a very heavy top although it makes a fairly nice turnip. It is used more for greens. Plant in late fall and winter. It does not winter kill.

Pkt. 10c, oz. 15c, $\frac{1}{4}$ lb. 25c, 1 lb. 85c, postpaid.

COWHORN

This is a great winter variety. It is recommended for its feeding value and enormous yield. It is a good table turnip if used while young and tender.

Pkt. 10c, oz. 15c, $\frac{1}{4}$ lb. 25c, 1 lb. 85c, postpaid.

PURPLE TOP RUTABEGA

This is a wonderful fall and winter variety. It is remarkable for its uniform shape, size and quantity. The roots grow to a very large size; neck very small and tops short. The skin is beautiful creamy yellow with purple top. It is an excellent keeper.

Pkt. 10c, oz. 15c, $\frac{1}{4}$ lb. 25c, 1 lb. 85c, postpaid.

Eastern Seed Co.'s Flower Seeds

Flowers are the trimmings around the home and the greatest trouble is that too many of us live in untrimmed homes. Nothing adds more to the beauty of a place than a few well arranged flowers and a few blooming vines planted to cover up some ugly places which usually show up around all homes. There are so many beautiful flowers now a days that it is possible to have something blooming all the year. The cost of seed and the amount of work necessary is so small that there is no good excuse for so many bare and unsightly yards. If you would like to make your home grounds beautiful and are not familiar with the different kinds of flowers we will be glad to advise with you and to suggest which ones would be best suited to your grounds. We use the same care in buying flower seeds as we do in the other sorts and will surely do our very best to sell you good seeds and in a selection which will make you come back from year to year. Following we will list the more popular flower seeds for planting. There are many kinds that we do not list, but can furnish if you care for them:

ALYSSIUM SWEET

This is a hardy annual used for borders and edging. Comes early in spring covered with clusters of pure white flowers.

Pkt. 10c, 3 for 25c.

LITTLE GEM

(Carpet of Snow) a beautiful white sort for borders, edging and back work, six inches tall and an abundant bloomer.

Pkt. 10c, 3 for 25c.

AGERATUM

A hardy annual of bushy habit with beautiful lavender, blue and white flowers.

Pkt. 10c, 3 for 25c.

ANTIRRHINUM (Snap Dragon)

This is one of our best flowers especially fine for cut flowers. Sow spring and fall.

Dwarf mixed, Pkt. 10c, 3 for 25c.

Tall Mixed, Pkt. 10c, 3 for 25c.

AMARANTHUS

These plants give contrast of color and are useful for tall border groups and foliage effects, 3 to 5 feet tall.

Caudatus (Blood Red), Pkt. 10c, 3 for 25c.

Tricolor (Leaves red, yellow and green), Pkt. 10c, 3 for 25c.

Creuntus, (Dark red feathery flower), Pkt. 10c, 3 for 25c.

Asters

ASTERS

Asters do well in any soil prepared the same as you would for a crop of vegetables. Plant in early spring for fall and winter blooming.

Giant Comet Mixed, many colors about 18 inches high, Pkt. 10c, 3 for 25c.

Giant Comet Mixed, many colors, same beautiful colors, but grows 2½ to 3 feet tall. Pkt. 10c, 3 for 25c.

Snap Dragon

Balsam Lady Slipper

BALSAM LADY SLIPPER

A hardy annual growing 1 foot to 18 inches tall. Very easy to grow, an abundant bloomer of many brilliant colored flowers.

Double Mixed, Pkt. 10c, 3 for 25c.

Camellia Fl. Mixed, Pkt. 10c, 3 for 25c.

Flower Seeds

CALENDULA (Pot Marigold)

Grows in any garden soil making very effective beds and borders about 1 foot tall. Blooms very freely in winter and early spring.
Pkt. 10c, 3 for 25c.

Pot Marigold

CANDYTUFT

This is considered one of the most prolific bloomers, bearing clusters of flowers in a wide range of colors, good for cutting, also fine for beds and borders.

Fine Mixed Colors, Pkt 10c, 3 for 25c.

CASTOR BEANS (Ricinus)

This is a very large leaved plant and is fine for back grounds or to grow in groups like Cannas. Pkt. 10c, 3 for 25c.

CELOSIA (Coxcomb)

They form the gayest possible decoration in beds and borders. Grow best in light soils.

Dwarf Coxcomb, Deep purple foliage, Pkt. 10c, 3 for 25c.

Pyramidalis, Feathered Coxcomb plants 2 ft. or over in height covered with brilliant colored plumes of red, yellow or violet, Pkt. 10c, 3 for 25c.

Coxcomb

CENTUREA (Corn Flower or Batchelor Buttons)

Favorite everywhere. A very hardy annual will do well everywhere. They produce bright and colored, single and double flowers on long, graceful stems and are delicately fragrant.

Cyanus, blue and white flowers, Pkt. 10c, 3 for 25c.

Cosmos

COSMOS

A hardy, fast growing annual, growing plants 4 to 5 feet high with feathery green foliage, producing long, graceful stems with flowers much like Dahlia. Do best in rich, loamy soil.

Giant Flg. Mixed, Pkt. 10c, 3 for 25c.

Klondyke, fine, large, golden yellow flowers on long stems, Pkt. 10c, 3 or 25c.

FOUR O'CLOCK (Marvel of Peru)

A beautiful, old fashioned flower of heavy bush growth, producing many highly colored flowers, which open about 4 o'clock in the afternoon. This is a fine flower for background. Pkt. 10c, 3 for 25c.

Shasta Daisy

SHASTA DAISY

A well known flower growing about 2 feet high, beautiful flowers, pure white petals with golden centers. Fine for cut flowers, good for borders.

Pkt. 10c, 3 for 25c.

Flower Seeds

ESCHSCHOLTZIA (California Poppy)

Very fine for beds. The flowers are true golden yellow, stands hot, dry weather real well.

Pkt. 10c, 3 for 25c.

HELIOTROPE

A half hardy perennial which flowers during the entire season. Planted in early spring will bloom in summer. Plants robust with highly perfumed flowers.

Pkt. 10c, 3 for 25c.

HIBISCUS

Giant Mallow Marvel, a fine giant flowered variety, in colors ranging from white to rich crimson. They bloom freely from June to well into the fall. Height 4 to 6 feet. Give plenty of water during blooming season.

Pkt. 10c, 3 for 25c.

HOLLYHOCK

This old fashioned perennial is unlimited in its production of brilliant colored flowers. Seeds should be planted in early spring.

Mixed colors, Pkt. 10c, 3 for 25c.

ICE PLANT

A tender annual of trailing habit. Used mostly for hanging baskets. Leaves and stems are succulent looking like they were covered with ice crystals.

Pkt. 10c, 3 for 25c.

KOCHIA (Mexican Fire Bush)

This is a very symmetrical attractive hedge plant. It forms a globe shaped bush about 2 to 3 feet high. Foliage is fine like moss and a very bright green. After frost in the fall bush turns bright red. Fine for borders, hedges, etc.

Pkt. 10c, 3 for 25c.

LANTANA

Popular free blooming very rapid growing plant with flower heads of various colors. Used largely for summer bedding and blooms well into the winter.

Pkt. 10c, 3 for 25c.

LARKSPUR

This is one of the most popular annuals. Produces long stems of double flowers with all shades and colors. This is a fine plant for beds and borders.

Dwarf Mixed, Pkt. 10c, 3 for 25c.

Fall Mixed, Pkt. 10c, 3 for 25c.

Larkspur

MARIGOLD

When grown in beds they are very effective. Plants grow 2 to 3 feet high, producing large flowers of yellow shades.

Double French Mixed, Pkt. 10c, 3 for 25c.

Double African Mixed, Pkt. 10c, 3 for 25c.

PANSIES

This beautiful little flower needs no introduction, for spring and summer blooming seed should be sown in late summer or early fall. Sow in good rich soil and transplant when plants are strong enough to handle.

Giant Trimardeau Mixed colors, Pkt. 10c, 3 for 25c.

Choice English Mixed, Pkt. 10c, 3 for 25c.

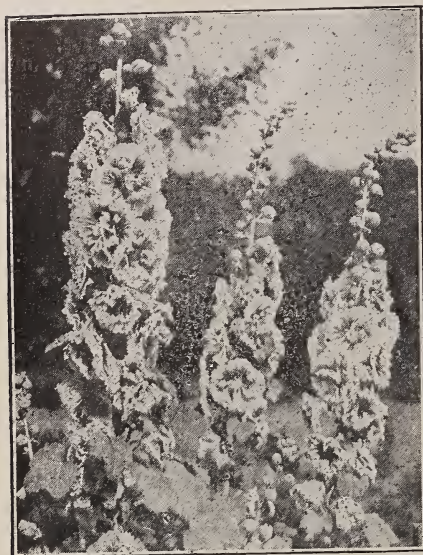

Marigold

PORTULACA (Old Fashioned Moss)

A very attractive low creeping sort of plant. Used in borders, beds and rookeries. Blooms profusely in hot weather and has many brilliant colors.

Single Mixed Colors, Pkt. 10c, 3 for 25c.

Double Mixed Colors, Pkt. 10c, 3 for 25c.

Hollyhock

Kochia

Phlox

PETUNIAS

There are few plants that furnish as much pleasure when planted in pots, porch boxes or in beds as the Petunia. They send out a profusion of varicolored flowers throughout the summer and well into the winter. Petunias stand a great deal of hot weather.

Ruffled Giants Mixed Colors, Pkt. 20c, 3 for 50c.

Single, striped and bloched, Pkt. 10c, 3 for 25c.

Single Choiced Mixed, Pkt. 10c, 3 for 25c.

PHLOX

This flower comes in the greatest range of colors of any we know. Sow in beds and borders. This flower is a native of Texas, very easily grown and will make a great show wherever planted.

Phlox Drummondi, Fine Mixed, Pkt. 10c, 3 for 25c.

POPPIES

This well known hardy plant flowers freely through the spring and summer. They come both single and double and are very desirable for bedding and borders. The flowers are remarkable for size, delicate of tissue and wide range of dazzling colors.

Tulip Flowered, Single bright scarlet with black spot at throat, Pkt. 10c, 3 for 25c.

Iceland, Mixed colors. Graceful delicate variety with crinkled single flowers resembling tissue paper, Pkt. 10c, 3 for 25c.

Shirley—The most beautiful of the single flowered poppies, mixed colors ranging from white to brilliant red Pkt. 10c, 3 for 25c.

Peony Flowered, Mixed—Large showy double flowers in many beautiful colors, Pkt. 10c, 3 for 25c.

Poppies

PINKS

Another of the old flowers loved by all. Easy to grow and works nicely in beds and borders.

Double Japan Mixed, Pkt. 10c, 3 for 25c.

Double China Mixed, Pkt. 10c, 3 for 25c.

NASTURTIUMS

This flower is so well known that it needs no description.

Tall Mixed, Pkt. 10c, 3 for 25c.

Dwarf Mixed, Pkt. 10c, 3 for 25c.

SALVIA (Scarlet Sage)

This is a wonderful bedding plant. garden bright well into the winter.

Pkt 10c, 3 for 25c.

Pinks

SCABIOSA (Old Maids Pincushion)

This is a magnificent hardy annual of easy cultivation. Blooms freely through the summer and autumn. Stands our hot dry summers splendidly. The flowers are large and showy and very fine for beds or cut flowers.

Pkt. 10c, 3 for 25c.

SUNFLOWER

Giant Russian—Flowers very large. Often measuring 10 to 12 inches in diameter The seed makes splendid chicken and bird food.

Pkt. 5c, 1 lb. 40c, postpaid.

Nasturtiums

DOUBLE CHRYSANTHEMUM FL.

This is a beautiful summer bloomer. Plants grows 6 to 8 feet high, flowers very large with fringed petals often measuring 6 to 10 inches across.

Pkt. 10c, 3 for 25c.

Flower Seeds

Sweet Peas

SWEET PEAS

Perhaps the greatest favorite of any flower grown in the South. Now that we know how to grow sweet peas there is no reason why every home owner should not have a beautiful bed or border of sweet peas. If you do not know how to grow sweet peas ask us, we will be glad to give you this information.

We specialize in sweet peas and the following are we think, best suited for our territory:

STANDARD SPENCER—This is a good mixture not quite so early as the above—Pkt. 10c, oz. 25c ¼ lb. 85c, postpaid.

ECKFORDS CHOICE MIXED—Many beautiful colors—Pkt. 10c, oz. 20c, ¼ lb. 50c, postpaid.

SWEET WILLIAM

A beautiful flowering plant. Produces a splendid effect in borders and beds with its rich and varied flowers.

Pkt. 10c, 3 for 25c.

VERBENA

There is no flower better known. Very desirable for massing in beds and flower boxes. The blooms, born in clusters, are very attractive.

Mixed Colors—Pkt. 10c, 3 for 25c.

Scarlet—Pkt. 10c, 3 for 25c.

White—Pkt. 10c, 3 for 25c.

VINCA-PERIWINKLE

The king of flowers for dry weather, it seems the hotter it gets, the hotter the sun shines the greener the Vinca plant gets and the more it blooms. Flowers pure white, white with pink eye and rose red.

Mixed all Colors, Pkt. 10c, 3 for 25c.

MAMMOUTH ZINNIAS

This too is a true southern hot weather flower and during recent years are attracting more attention than any flower grown on account of its large size, brilliantly colored flowers which last until killed by frost.

Double Giants Mixed

Orange
Crimson
Scarlet
Bronze
Pink

Pkt. 10c, oz. 75c, postpaid.

ASSORTED ZINNIAS

Vines or Climbers

With their wide variance in color, their beauty in foliage and blossom, these vines frequently provide the finishing touches to your home grounds. Some of these will climb on masonry and brick work. Others climb on lattice work and supporters of various kinds.

You should visualize the effect desired and train them to cover your walls, pergola, laundry posts or fences. They are objects of beauty and a pleasure to the planter. The following are all good standard varieties:

BALSAM APPLE

An excellent climber bearing cream colored flowers followed by rich yellow apple shaped fruits. When fruits are ripe they burst open and are bright red inside, a splendid climber.

Pkt. 10c, 3 for 25c.

CANARY BIRD FLOWER

Produces canary colored flowers climbing 15 to 20 feet. Last well until frost.

Pkt. 10c, 3 for 25c.

CYPRESS VINE

A fast growing climber with delicate green foliage resembling fern, producing many white and red star shaped blossoms. Will grow 15 to 20 feet high.

Pkt. 10c, 3 for 25c.

Cypress Vine

CARDINAL CLIMBER

A strong and rapid grower reaching height of 25 to 30 feet. Has pretty fern like foliage with circular cardinal red flower which last until frost.

Pkt. 10c, 3 for 25c.

JACK BEAN DOLICHOS

A splendid climber with clusters of purple and white flowers. Grows 15 to 20 feet high. Very good to train on back fences and unsightly places.

Pkt. 10c, 3 for 25c.

MORNING GLORY

One of the most popular of the vines for covering windows, porch screens and other places which require a dense heavy foliage. It produces various colored delicate flowers.

Japanese Mixed. These are the largest of all morning glories, Pkt 10c, 3 for 25c.

Fine Mixed, Pkt. 10c, 3 for 25c.

MOON FLOWERS

Flowers open at night and on cloudy days. The large pure white flowers often measure 5 to 6 inches in diameter. Vines are very vigorous growers often running 50 to 60 feet. The leaves are large heart shaped glossy green and never troubled by insect pests.

Pkt. 10c, 3 for 25c.

Field Seeds

In these days of high price land and labor, it is more necessary that our farmers use good seed than in olden days when every thing was cheap and the demand was small. There has been great progress made the last few years in the improvement of all kinds of field seeds especially corn, cotton and the grain sorghums. The farmer can now buy seeds which is almost sure to produce a good crop if given the necessary cultivation. Our cotton of today makes more pounds per acre and at the same time makes longer and higher priced staple, and yet the improved seed costs very little more than the old varieties which will soon be obsolete. Our field seeds like the garden seed are all tested for germination and when you plant them you have the assurance of a good uniform stand provided you have the seed bed and moisture to bring them up. Why then take chances when you can get improved strains of known germination at such reasonable prices.

Following we list the varieties which we carry in stock if there is some particular kind of seed that you would like to use and do not find listed ask us for them and we are sure we can get them for you and at the same time save you some money on the purchase.

Alfalfa

HAIRY PERUVIAN

It is claimed that the Hairy Peruvian will yield $\frac{1}{2}$ to 2 tons more per acre than other varieties.

Compared with other Alfalfa the Peruvian is more upright, less branched and somewhat coarser stems and smaller crowns.

It is of rapid growth, producing an abundance of leaves and noted for its quick recovery after cutting. In some sections where there are mild winters Peruvian is cut all winter.

Per lb. 35c, 10 lbs. \$3.00, 100 lbs. ask for price. Ask for prices in large quantities.

Hairy Peruvian

VELVET BEANS

This is a great forage plant and soil builder it is becoming more popular each year. Fine for planting in corn at last cultivation. They make wonderful grazing for hogs, cattle, horses and sheep. They will eat the beans and dry vines after frost has killed them down.

EARLY SPECKLED or 100 day.

Per lb. 15c, 100 lbs. ask for price.

Field Beans

BUSH VELVET BEANS

A distinct and new variety which carries many valuable and original uses. It is a bush bean growing about 3½ feet high with limbs all branching from the bottom and with beans mostly rear the bottom. Planted between 5 foot corn rows, they will fill the whole middle but will not tangle the corn like the vining kind. Stands drought better than the vining kind and has all the fertilizing qualities. Broadcast 1 bushel per acre. Per lb. 15 cents, 100 lbs. ask for price.

SOJA OR SOY BEANS

This is the largest yielding and most nutritious of the summer crops and one of our greatest soil builders. Soy beans do well on both light and heavy soils and there is no crop which will clean land, make forage and build up soil better than Soy beans. It makes such a heavy growth that it is impossible for weeds to grow among them. For sowing broadcast use 2 1-2 bushels per acre in rows for beans 15 to 20 pounds per acre.

MAMMOTH YELLOW

Considered best for the South.
Per lb. 15 cents, 10 lbs. \$1.00, 100 lbs. ask for price.
Above prices not postpaid.

Soja or Soy Beans

Increase the yield of your Alfalfa, Cow Peas, Garden Peas, Beans, Field Beans and Sweet Peas by innoculating your seed with MULFORD CULTURES, it will pay you well by producing larger and better crops.

Garden size, 30c, ¼ acre size, 50c, 1 acre size, \$1.50, 5 acre size, \$5.00.
Above prices prepaid.

Cotton Seed

When our farmers plant cotton of course they want to do everything in thier power to make the most money out of the crop. This is but natural and perhaps the most essential thing in this conection and within his power is the selection and planting of good pure bred seed, no crop that we know of responds more quickly and generously to seed selection than does cotton. In the last few years there has been a great deal of seed breeding work done, and there are many fine varieties being grown in all the cotton growing sections of this state and others. In the case of cotton as well as all other crops it falls on the Seed Merchant to find out what variety is best suited to the section from which he draws business and to supply his friends and customers with this grade and kind of seed. In this connection we have found that BENNET'S IMPROVED COTTON SEED has proven to be the best for the territory from which our trade comes.

BENNET'S cotton was originated over in north east Texas some ten or twelve years ago and later on as the boll weevil and boll worm came into that country the breeding farms were moved up into Arkansas above the line of these ravages, BENNET'S COTTON grows a staple 1 1-16 to 1½ inches, a drought will slightly reduce this while favorable soil and moisture often increases its length. This length staple is adapted to all conditions and all markets and is wanted and can be used by all spinners.

The bolls are blunt pointed 35 to 45 making a pound of seed cotton, easy to pick which makes fast picking of a bale.

These very large bolls put very little trash in the cotton compared with the small boll varieties where often twice the number of bolls have to be picked to make a pound. The percentage of lint is 38 to 40, this percentage is often higher under favorable conditions. 1250 to 1350 pounds of seed cotton makes a 500 pound bale. This requires less labor and time to pick a bale than cotton requiring 1500 to 1800 pounds.

BENNET'S IMPROVED is also a storm proof cotton the burrs close up when cotton is wet. The cotton never strings out of the burrs, all told it is a fine cotton for our country of strong winds. Our seed comes direct from the breeder and we know will please you.

Prices gladly quoted upon request.

Our Selected Seed Corn

Our seed corn is all hand selected and grown by reliable growers. After receiving our stock it is all tested for germination before we ship and is therefore sure to give you a good even stand provided it is properly planted and you have the necessary moisture to bring it up. Following we have found to be the popular varieties for planting in South Texas. If we do not list your favorite kind please advise us what it is and we will endeavor to get it for you.

SURE CROPPER

This splendid corn has given results wherever planted and the demand has grown until we believe it is the most popular corn grown in Texas today. It is an early maturing drought resisting corn. It is used largely for late planting and is claimed by some to stand hot dry weather better than June corn. It is also planted largely as a standard early crop. Ears are of good size, stocky and well formed having about 14 rows of large white grains of good length and nice form. We recommend this splendid variety.

1 Peck \$1.00, 1 bushel, ask for price.

CHISHOLM WHITE RED COB

One of the old standard varieties and a good one, the ears are large with broad deep kernels set in close straight rows.

1 Peck, \$1.00 not prepaid, 1 bushel, ask for prices.

MAMMOTH YELLOW DENT

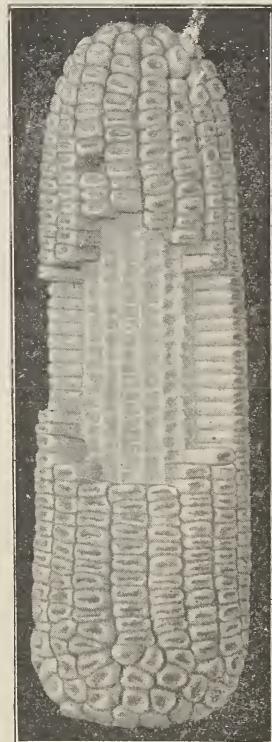

This is our best yellow dent corn and has given satisfaction among our corn growers who like a yellow sort. Has good size ears with large deep grains, matures in about 120 days.

1 Peck, \$1.00 not prepaid, 1 bushel, ask for prices.

MEXICAN JUNE CORN

This is the most popular of the late planting varieties and is said to resist hot dry weather better than any other. It is used largely in central and north Texas to plant as a second crop, usually being planted following a crop of oats. A medium size ear with large white grains.

1 Peck, \$1.00 not prepaid, 1 bushel, ask for prices.

Our Selected Seed Corn

Tested Clover Seed

Sweet clover belongs to the leguminous family a group of plants whose importance to agriculture is being recognized the world over. It resembles Alfalfa somewhat in growth and in food content. Sweet clover is very hardy and makes a rank growth of stems, leaves and roots. If left to mature it will reseed itself, even though pastured close. It does well in a wide variety of soils, will grow in almost pure sand, clay, blackland and in rocky places. A great soil builder sow at the rate of 20 pounds per acre.

WHITE FLOWERING SWEET Fancy Scarified Seed

Clover seed has a very hard shell which is difficult for moisture to penetrate therefore where the moisture is light it is very slow to germinate. The process of scarifying is to partially break this hard shell thereby allowing the moisture to penetrate, making it come up promptly.

Per 1 lb. 30c, 10 lbs. \$2.75, not prepaid.

Ask for prices in large quantities.

WHITE DUTCH CLOVER

This is the fine growing variety used largely for sowing on lawns, comes first in early spring and makes a perfect carpet of beautiful green also good pasture.

Per lb. 75c, 10 lbs. \$7.00, not postpaid.

BURR CLOVER

An annual largely used in the South for winter pasture. If you sow Burr Clover on your Bermuda grass sod it will give you green pasture all the year round. Disc your bermuda grass and sow Burr Clover in the fall.

Fancy Hulled Seed, Per lb. 40c, 10 lbs. \$3.75, not prepaid.

When sowing Alfalfa, Clover, Cowpeas and other Legumes always inoculate the seed with MULFORD CULTURES it will pay you well by increasing your yield very materially.

Non-Sacharine Sorghum

These are used largely for the grains they produce although the stalks and leaves make fine forage. The stalks do not contain much sugar like Orange Amber and Red Top Cane.

They are being used to good advantage for ensilage purpose. The droughts of recent years have taught the planters of Texas, Oklahoma and Kansas the value of Non-sachrine sorghums. More of the grain sorghums are going to be planted in the dry section in years to come than ever before as they insure the farmer a plentiful feed crop in grain as well as an abundance of forage.

EGYPTIAN WHEAT OR SHALLU

The growth is some what like Broomcorn it stools out at the roots often making 4 to 6 stalks to one hill. It has been planted in all sections of the state and has produced splendid crops of grain.

Price per 1 lb. 15c, 10 lbs. \$1.00, not prepaid.
Ask for prices in larger quantities.

NEW DWARF FETERITA

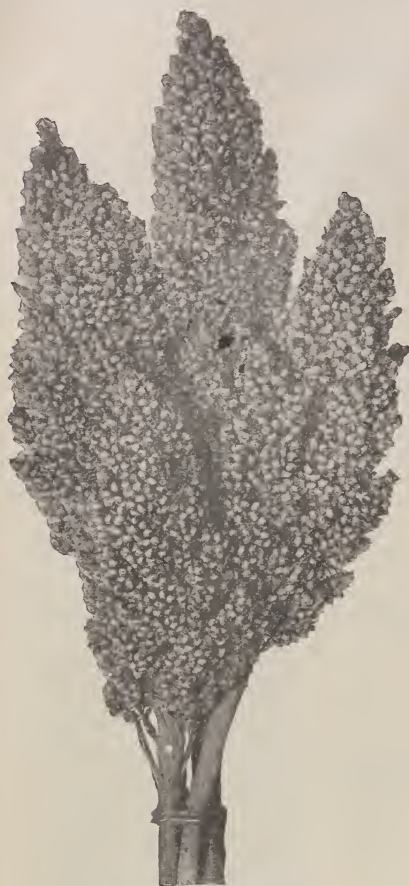

This is an improvement over the old standard variety and is becoming more popular every year, this variety grows in the dry sections about 4 or 5 feet high but will grow some taller on our rich black land in South Texas. The heads are larger than those of the standard variety. The heads grow erect and the grain is some what softer than other grain sorghums. Plant in rows, use 5 to 10 pounds per acre.

Per lb. 10 cents, 10 lbs. 75 cents, not postpaid.
Ask for prices on large quantities.

WHITE KAFFIR CORN

This is an old standard. Sow in rows, 5 to 10 lbs. per acre.

Per lb. 10 cents, 10 lbs. 75c, not prepaid.
Ask for prices in larger quantities.

New Dwarf Feterita

HIGARU

This is a new grain and Forage plant having been introduced in the last few years. We have been watching its merits very closely and are now thoroughly convinced that it is one of the most reliable grain and forage crops to plant in the Gulf Coast country. In the first place it contains more sacharine matter or sugar than any of the non-sacharine sorghums in fact nearly as much as red top cane. Some of our customers tell us that their stock will leave sorghum hay to eat Higaru, even where the heads have been cut off.

Another good feature about Higaru is that it is a sure heading crop and when planted in rows these heads are large and well filled with large white grains which have a high feed value. The plant is of dwarf growing habit and has more leaves than some of the non-sacharine sorghums making it fine for forage. We recommend this grain to all our customers.

1 lb. 10c, 10 lbs. 75c, not prepaid.

Ask for prices in larger quantities.

DWARF YELLOW MILO MAIZE

This is one of the most popular varieties of the non-sacharine sorghums grown in Texas. Immense quantities are grown in west and south Texas it is being planted more and more in the black land belt and is proving a good yielder wherever grown. Sow in rows, 5 pounds to 10 pounds per acre.

Price per lb. 10c, 10 lbs. 75c, not prepaid.

Ask for prices in larger quantities.

Higaru

DARSO

Darso is low growing with very heavy foliage. It is remarkable for its uniform height and shape and color of head. Its stalk is sweet and juicy, Darso matures earlier than Kaffir, which is one of its fine qualities. It makes excellent silage and can be used either for grain or for silage. Birds do not take to Darso in the field as they do to other grains of this class, neither do chinch bugs damage Darso as they do Maize. We recommend it to our customers.

Price per lb. 10c, 10 lbs. 75c, not prepaid.

Ask for price in larger quantities.

Sacharine Sorghums

Our cane is all fancy re-cleaned stock, the following varieties are best for planting in this territory. Sow 5 to 10 pounds per acre in drills, 100 to 150 pounds per acre broad cast.

Early Amber

EARLY AMBER

This is a very popular variety used largely to sow for forage, makes a large yield and can be fed either green or cured, frequently yields two to three cuttings a year, stools out thicker each time it is cut very rich in sacharine matter and will make good syrup if planted thinly, it will grow ten to twelve feet high.

Price per lb. 10 cents, 10 lbs. 75c, not prepaid.

Ask for prices in larger quantities.

RED TOP CANE

The most popular of all canes for forage and hay making. The seed is smaller than Amber or Orange and therefore plants a little farther. Our stock of Red Top is very fine and we are sure will give satisfaction.

Price per lb. 10c, 10 lbs. 75c, not prepaid.

Ask for prices in larger quantities.

SHROCK KAFFIR SORGHUM

This is a comparatively new grain, it is claimed to be one of the finest of the sorghums for forage and ensilage it is quite sweet and grows an abundance of broad long leaves it is a wonderful grain to stool out not unusual for a single grain to send up six to ten stalks making a fine head of light brown grains which is fine for stock and poultry feed, one of the best drought resisters of the sorghum family. Sow in drills at the rate of 3 to 5 pounds per acre.

Price per lb. 10c, 10 lbs. 75c, not prepaid.

Ask for prices in larger quantities.

Cane for Syrup Making

These are used largely for syrup making but are excellent for forage on account of the large amount of sacharine matter which they contain.

JAPANESE HONEY DRIP

A very tall variety which matures in about 125 to 150 days. The stalks are large with many joints and are therefore very vigorous. The root system is well developed to support the heavy top which produces large quantities of fine syrup.

It produces the heaviest tonnage per acre of any of the sorghums. The seed is of a yellow cast incased in a rich red husk or glume.

Price per lb. 20c, 10 lbs. \$1.50, not prepaid.

Ask for prices in larger quantities.

CROOKNECK RIBBON CANE

This cane has been planted for several years for syrup making, and has given the best of satisfaction to those who have planted it. It has been known to produce 300 to 400 gallons of high grade syrup per acre. It grows from 10 to 15 feet high with very large stalks, a good root system which holds it up well. It is one of the best canes that can be grown for ensilage on account of the enormous yield. 1 lb. 20c, 10 lbs. \$1.50.

Ask for prices in larger quantities.

Cow Peas

Cowpeas should be grown where ever farming is done as they can be planted with and following other crops. By doing this you not only fertilize and build up the soil but they keep down to a large extent the growth of weeds and grass which usually follow the last cultivation. Cowpeas are one of our very best hay crops as they yield an abundance of hay of the very best feed value. Plant broadcast at the rate of 60 to 90 pounds per acre. Following are the best varieties for southern planters.

WHIPPOORWILL PEAS

A favorite early upright growing variety more largely grown than any other kind. Has brown speckled seed which are easily gathered, makes good growth of vine which can easily be cut and cured for hay. When plowed under is of great additional value as a fertilizer.

Price per lb. 15c, 10 lbs. \$1.00, not prepaid.

LARGE WHITE BLACK EYE

The large blackeye pea is more prolific, better flavored and brings a better price than most any other variety. Where peas alone are wanted the planter will probably find this variety more desirable than any other.

Price per lb. 20c, 10 lbs. \$1.25, not prepaid.

Ask for prices in larger quantities.

CREAM OR LADY PEAS

While this is a cowpea it is a very fine one to grow as a table pea the peas are nearly round almost white and of excellent flavor when cooked. Preferred by many to the black-eye

Price per lb. 20, 10 lbs. \$1.25, not prepaid.

Ask for prices in larger quantities.

Large White Blackeye Pea

CLAY PEAS

The seed of these are of medium size, clay colored. The vines grow long and very leafy seed matures very late, perhaps one of the best for enriching the soil.

Price 20c, 10 lbs. \$1.25, not prepaid.
Ask for prices in larger quantities.

BROWN CROWDERS

This is another favorite as a table pea. It is one of the largest of the cowpeas and is becoming more popular each year. Seeds are light brown color and are fine for cooking both green and dry.

Price 20c, 10 lbs. \$1.25, not prepaid.
Ask for prices in larger quantities.

Mangels or Stock Beets

Mangels or Stock Beets are a splendid winter feed for cattle and hogs. They will yield larger crops than Turnips and are of greater feeding value. The best root food in existence for all kinds of stock. Over 40 tons per acre have been grown with good cultivation on good land this quantity per acre has a food value equal to 130 bushels of corn.

The following are our leading sellers and have proven very satisfactory to those who have planted them.

MAMMOTH LONG RED

This is one of the old reliable sorts. Crops of 40 to 50 tons per acre have been made on good land and with good cultivation. The roots often weigh 20 to 25 pounds each. It grows well above the ground and is easily harvested. Dark leaves, flesh white, veined rings of rose pink.

Per oz. 10 cents, 1 lb. 70 cents, postpaid.
Ask for prices in larger quantities

THOMPSON'S RED SUGAR STOCK BEET

This is a very fine stock beet in fact one of the best that we have ever sold. A great many of our Gulf Coast friends have planted this fine beet and practically all of them report it as having given splendid satisfaction.

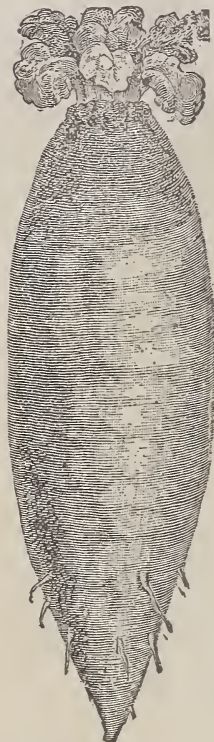

They make a very heavy yield and the fine large beets contain considerable sugar and are relished by all kinds of stock. They grow well above the ground which makes harvesting easy

Price per oz. 10c, 1 lb. 70c, postpaid.
Ask for prices in larger quantities.

LANE'S IMPERIAL SUGAR BEET

This is a white fleshed sugar beet used largely for stock feeding and has proven very satisfactory with our trade. We highly recommend this variety to those wanting a true sugar beet.

Price per oz. 10c, 1 lb. 70c, postpaid.
Ask for prices in larger quantities.

Mammoth Long Red

Our Tested Grass Seed

Texas was at one time considered the greatest state in the Union for grass. The coming of civilization and the plow has destroyed the great number of acres of native grasses and now we are beginning to realize the need for them. Fortunately we have discovered many new grasses which are far superior in food value and which will make so much more per acre that after all it is probably for the best the we plowed up the old pastures, as we are now able to sow pastures exactly where we want them and grow only grasses of high food value. There are a great many grasses that do well in the Southwest and we can furnish most any kind that you want, but for lack of space in this catalogue we only list a few varieties which we know to be the best suited for this country. If you do not find the kind you require ask us for it and we will endeavor to supply you.

Rhodes Grass

Rhodes Grass is especially adapted to all sections of the South where the winter temperature does not go below 18 degrees. This grass has given splendid results in South Texas especially the Gulf Coast country. On good ground Rhodes grass will grow over 4 feet tall with a fine leafy stem which makes a hay easy to cure and of the best quality. It can be cut from 3 to 5 times in a season and will yield from 3 to 8 tons per acre. On account of its heavy growth it covers the ground thoroughly and holds rainfall so that it conserves moisture. Its roots penetrate to great depth through all porous soils it will not withstand much drought but on deep soils underlaid with clay it will stand more dry weather than any grass known. The seeds of Rhodes grass are very fine and inclosed in a chaff hull or shell and are very light only weighing about 7 pounds to the bushel. They do not mature very evenly and germinate very slowly and the grass is slow in starting off making its first growth downward forming a good root system. Once the roots system is formed the growth of the plant is astonishing and chokes out weeds and grasses of all other sorts. This grass spreads by

runners on top of the ground the runners often 6 feet long with joints every 5 or 6 inches, taking root and throwing up new plants at each joint in this way it covers the ground rapidly. It is an ideal grass for grazing as well as for hay making. Frost browns this grass but does not kill or badly injure it for pasture. It is not a pest and can be killed by plowing it up. We especially recommend Rhodes Grass to our Gulf Coast farmers.

Price pr lb. 70c, 10 lbs. \$6.50, not prepaid.

Ask for prices in large quantities.

Sudan Grass

Sudan Grass

Here is another wonderful fodder or hay crop it has taken the country by storm. Sudan grass is thought to be the original wild form of the cultivated sorghums. It is an annual the seed having to be sown each year. It looks like Johnson grass when growing, but has a different root growth. Sudan grass will not sprout from the roots after being killed by frost.

Ranges in height from 5 to 10 feet stems are slender and more leafy than Johnson Grass. The number of cuttings per season depends largely on the length of the season. It usually matures a crop in about 90 days from planting and the second cutting in about 30 days. Its feeding value makes it one of the dependable crops for every farmer.

Stock of all kinds eat it very readily and will leave other hay to eat Sudan. In dry districts it is usually planted in rows 36 inches apart, this requires 3 to 4 pounds per acre. It is sown broad cast where there is sufficient rainfall for broad cast sow 30 to 40 pounds per acre. Our stock of Sudan Grass is all recleaned and tested for germination and will therefore give you a fair start for a good hay crop if you plant them.

Price per pound 15c, 10 lbs. \$1.25,

Ask for prices in larger quantities

Bermuda Grass

This is the finest grass known for lawns and pastures for the south. It will grow on almost any soil. Where grown for hay it can be cut two or three times during the season. The soil should be thoroughly harrowed before and after sowing the seed. Bermuda Grass seed is very small and are slow to germinate, it is therefore necessary to have the soil in good condition before planting. For sowing on old lawns where the sod is not good it is a good idea to sow the seed and cover lightly with fresh soil not more than $\frac{1}{4}$ inch deep. Rake well and keep well watered. Sow 5 to 10 pounds per acre.

Price per lb. 70 c, 10 lbs. \$6.50, not prepaid.

Ask for prices in larger quantities.

Selected Seed Oats

TEXAS RED RUST PROOF

These oats stand up well and mature in about 10 days or two weeks earlier than ordinary Texas Red Oats and will ripen all at the same time. They grow about $3\frac{1}{2}$ to 4 feet high on good stiff stems do not blow down easily and are practically beardless which makes them easily sown. Being earlier than other oats will often make a difference of 10 to 15 bushels per acre in the yield. They also make better winter pasture than ordinary oats as they have broader heavier leaves.

Price per peck, 50c, 1 bu. \$1.25, not prepaid.

Ask for prices in larger quantities.

Peanuts

Spanish Peanuts

SPANISH PEANUTS

In addition to their value for growing nuts these are largely used now days as a forage crop for hogs and other stock. They are early to mature and very productive. In some sections it is possible to grow two crops in one year. Spanish peanuts grow more compact form than the Virginia peanuts making it possible to grow them closer, which makes cultivation easier. While the nuts are smaller they are very much sweeter and of finer flavor than the larger sorts, and the pops so common in the larger sorts are seldom found in the Spanish. The best crop in the South for fattening hogs.

Thousands of acres are now grown in Texas for oil purposes, the oil mills now buy all the peanuts they can get at fancy prices. They promise to be one of the best money crops that the farmer can grow.

Price per lb. 20c, 10 lbs. \$1.50, not prepaid.

Ask for prices in larger quantities.

TENNESSEE RED

A very fine variety, it is especially adapted to the black land but does well on sandy soils. The nuts contain 3 large kernels each and are very productive. The best of the large varieties for South Texas.

1 lb. 25c, 10 lbs. \$2.00, not prepaid.

Our Selected Millet Seed

The millet seed that we handle is all Southern grown and is much better for planting here than the northern grown seed. If you grow millet and want to produce seed you should sow about 5 to 10 pounds per acre in drills and cultivate like any other row crop. If sown for hay, put down 25 to 30 pounds per acre broad cast. Any reasonably good land will produce good crops of millet. Well drained however is best.

FANCY BIG HEAD GERMAN

This kind grows very rank and is the best to grow for hay and fodder, on good rich soil it will make a growth of 4 to 5 feet high and the hay is so tender if cut at the right stage when in full bloom even hogs will eat the cured hay. A yield of 4 to 5 tons per acre is not unusual.

Price per lb. 20c, 10 lbs. \$1.00, not prepaid.
Ask for prices in larger quantities.

CHOICE GERMAN

This is a standard grade of millet usually sold throughout the country, it is re-cleaned and is comparatively free from foreign seeds.

Price per lb. 15c, 10 lbs. 85c, not prepaid.
Ask for prices in larger quantities.

RAPE

Rape is a valuable forage plant, the use of rape has grown from a few thousand pounds to thousands of tons per year. Until recent years it was sown entirely for sheep pasture, but now it is used largely for cattle, horses and hogs, nothing makes better pasture or winter green feed for chickens than rape. It grows well on practically all soils and can be sown both in spring and fall. Sow broad cast at the rate of 5 to 6 pounds per acre.

Prices, 1 lb. 25c, 10 lbs. \$1.50, not prepaid.
Ask for prices in larger quantities.

RYE

This valuable grain is sown largely for winter pasture, but will make grain most any where that wheat does well.

Price per lb. 10c, 10 lbs. 75c, not prepaid.

Sunflower

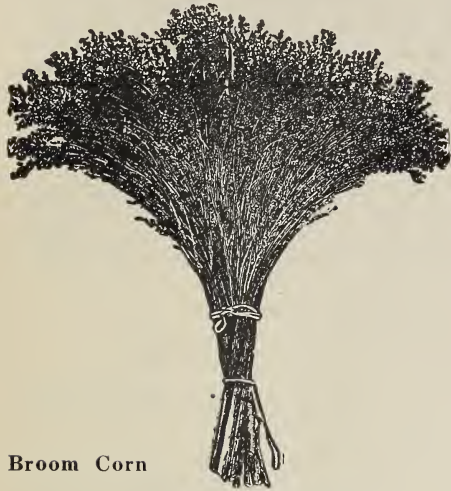

MAMMOTH RUSSIAN

Few people realize the value of this crop, the seed is highly valued by poultry raisers who have tried them, single heads often measure 10 to 20 inches in diameter and contain large quantities of seed which can be raised much cheaper than corn, the stalks are large and make good fire wood. 3 lbs. will plant an acre.

Price per lb. 25c, 5 lbs. \$1.00, not prepaid.

Wheat

There is such a small quantity of wheat sowed down in this territory that we will not list it. If you are in the market for seed wheat ask us for prices, we will be glad to quote you and can furnish all standard varieties.

Broom Corn

FANCY DWARF

The stalks of this variety are decidedly dwarf only grows 4 to 5 feet high, but makes long smooth bright straw and is a very heavy yielder. A very desirable market crop. Matures in 75 to 90 days from planting.

Price per lb. 20c, 10 lbs. \$1.50, not prepaid.
Ask for prices in larger quantities.

BEARDED WINTER BARLEY

Makes excellent winter pasture and will yield from 50 to 75 bushels per acre. This is the most popular variety grown and large quantities are sold each fall. Should be planted at the rate of 2 to 2½ bushels per acre.

Price per lb. 10c, 10 lbs. 75c.

Ask for prices in larger quantities.

Broom Corn

Broom corn is one of our best paying crops and will do well on any land that will grow corn. It is drought resisting and will make a crop with very little rain, this feature alone makes it a valuable crop for the south western farmer. One acre should make from 1 to 1½ tons of cured straw and 25 to 40 bushels of seed which has a good feeding value for stock. Plant in rows 3½ feet apart, thin to about 6 inches in the row, cultivate same as corn. 5 to 8 pounds to plant an acre. The following varieties are best to plant in this country:

FANCY STANDARD EVERGREEN

This variety grows 8 to 10 feet tall stands up well and is free from crooked straw. The fibre is long and of rich dark green color and always commands the highest prices when placed on the market. Our stock of seed comes from a grower who makes a specialty of broomcorn seed and we do not hesitate to tell you that they are as good as can be had.

Price per lb. 20c, 10 lbs. \$1.50, not prepaid.

Sprayers and Spraying Material

HUDSON PERFECTION COMPRESSED AIR SPRAYER

A strong tank must be provided to handle the high pressure safely, one which will not leak or blow out.

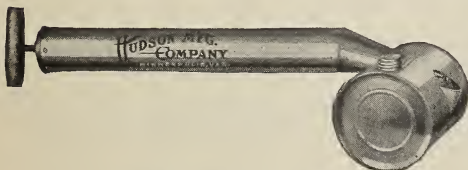

The riveted head, sides and bottom seams of the Perfection give ample safety. A strong powerful pump is furnished to develop the high pressure necessary. In the Perfection is used an all brass pump which is not affected by chemicals used in spraying. The Perfection Automatic Nozzle is built for high pressure and will close tight under any amount of pressure. It is just the thing for general work around the house and yard in the barn yard, poultry houses, truck farm, vineyard, potato field, cabbage and onion fields, in fact any where you might want to use a liquid spray. It is also fine for white washing and putting on cold water paint, and general disinfecting.

The tank is 7½ inches in diameter and 20 inches long, capacity approximately 4 gallons. Made from the best quality galvanized iron or brass as ordered. The pump is 1¾ inches in diameter, 15 inches long, seamless brass tubing, plunger is equipped with Hudson special cupped leathers, the valves are brass and positive in action. Shipping weight 11 pounds.

No. 130-G Galvanized Steel Tank, price each, \$7.50, not prepaid.

Compressed Air Sprayer

Misty Hand Sprayer

HUDSON JUNIOR SPRAYER, No. 140-G

This is a compressed air sprayer built along the same lines as the Perfection, but of smaller capacity to suit the requirements of those who do not require the larger type, it is a thoroughly well made machine and will give splendid satisfaction, capacity about 2½ gallons.

Price each. \$6.00, not prepaid.

HUDSON MISTY HAND SPRAYER

This is a small sprayer suitable for general household use and for spraying small poultry houses, flower plants and small gardens. Does splendid work where a sprayer of small capacity is required. Pump is made of heavy material 1½ inches in diameter and 14 inches long, fitted with Hudson plunger leather and heavy rod. Tank made of heavy material and holds one full quart.

No. 452-G Galvanized tank, price each, 75c.
Not prepaid.

HUDSON CONTINUOUS SPRAYERS

Very similar to the Hudson Misty only that it is easier to operate as it is really a small compressed air sprayer and throws a steady fine spray with very little pumping.

No. 424, Made of heavy tin, each \$1.50, not prepaid.

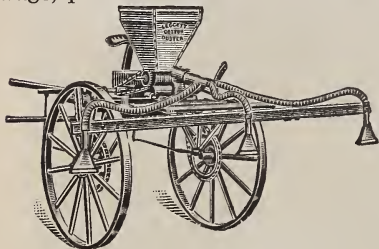

HUDSON POWDER SPRAYER No. 661

Just the thing for dusting small home gardens, flowers and shrubs. Use any kind of dry powder and makes a fine heavy cloud of dust with very little effort. Made of heavy tin and should last for years. Price each, 75c, not prepaid.

SPRINGFIELD POWDER SPRAYER

This is a compact hand machine for those who do not require a dusting machine of large capacity. One man can dust from 4 to 6 acres of cotton per day with this duster, it is so constructed as to make very thorough application of the poison with small if any waste. This is not only fine for Calcium Arsenate, but dandy for handling any kind of dry poison. Excellent for use in dusting cabbage, potatoes, melons and other truck crops.

Price each, \$6.00, not prepaid.

Cotton Duster

LEGGETT'S COTTON DUSTER

(36 inch axle clearance, 40 inch wheel spread)

Reservoir holds 60 pounds of Calcium Arsenate, Hyatt Roller Bearing in dust proof boxes on main gear shaft and fan shaft. Drawn by team. Shipping weight 525 pounds.

A special attachment under Hopper thoroughly mixes the poison with the air before it is drawn into the fan box where the air pressure divides the material into the finest particles thus assuring maximum dust cloud and greater distribution of the material over the plant.

Amount of material being applied is easily regulated and adjustable to any required amount. The clutch for throwing the machine in and out of gear is right at the drivers seat. There is no back draught in the reservoir.

Tubes can be raised or lowered for dusting either small or large cotton. Tubes are also adjustable for rows of different widths.

Tubes are made of flexible metal, fan, agitator and other parts are all readily accessible and easily replaced.

Drive sprockets on both wheels equilibrate the pull thus assuring a strong steady blast.

WRITE FOR SPECIAL CIRCULAR AND PRICE.

Spraying Materials

We are headquarters for **CALCIUM ARSENATE** and other poisons. Be sure to get our prices before buying.

PARIS GREEN

This insecticide is a sure killer of all insects, but must be mixed and handled with the greatest care, as a mixture made the least to strong will burn and injure the plants.

Price per lb. 60c, ask for prices in larger quantities.

WHALE OR FISH OIL SOAP

Used for spraying ferns and palms, also fine to mix with other insecticides and fungicides as a spreader.

Price per lb. 35c.

Ask for prices in larger quantities.

TOBACCO DUST

Used largely in green houses and on pot plants also on young cucumbers, cantaloupes, squash and watermelons as a preventative for bugs and leaf eating worms.

Price per lb. 15c.

Ask for prices on larger quantities.

Calcium Arsenate

SURE DEATH TO BOLL WEEVIL

The past four years has shown us that we can whip the weevil by using effective poisons. There have been a great many experiments made in the great fight against this enemy of the cotton crop. These show that with the proper application of Calcium Arsenate we can control him. We have sold a great deal of this Calcium and are pleased to say that all of our customers report very favorably on the results of their trials.

Next season we expect to see practically every farmer join in this poison fight against this worst of all insect enemies. We are prepared to furnish our customers with Calcium Arsenate of the very highest quality.

This Calcium contains not less than 42% Arsenic Oxide and is very light and fluffy so as to flow freely from the dust gun. Our Calcium will meet all these specifications as well as those of the U. S. Dept. of Agriculture.

This is without doubt the greatest insect destroyer of the day, it is not only effective against the boll weevil but may be used on cabbage, cucumbers, and melons in fact anything affected by insect pests. Price per lb. 30c. Ask for prices in larger quantities. Not mailable.

DRY LIME SULPHUR

A very effective remedy for scale and fungus troubles. Used mostly for dormant spraying.
Per lb. 40c, not prepaid.

BLACK LEAF 40

This is a concentrated Nicotine solution for general spraying and is very effective against all Aphids, Hoppers and worms, it is a contact spray and should be applied thoroughly to the affected plants repeat when the insects reappear.

Price 1 oz. bottle 35c, 1½ lb. \$1.25, 2 lb. can \$3.75, not prepaid.

BORDEAUX MIXTURE

Used in dry powder form and in solution for fungus diseases and mildew.

Price per lb. 50c, not prepaid.

ARSENATE OF LEAD

This makes more solution than other insecticides, very effective against all chewing insects.

Price per lb. 40c, not available.

Ask for prices in larger quantities.

Flower and Plant Boxes

The SAVO self watering steel flower and plant box is scientifically constructed under the sub irrigation plan, which is the most perfect plan ever devised for the growth of any kind of plant life. Cannot over water plants and the air goes direct to the roots, water is given once each week. You may move SAVO boxes indoors or out and have beautiful flowers and ferns continually. Used for window and porch decoration. Finished in the following sizes:

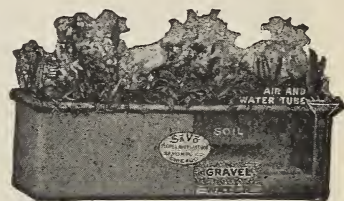

Model A. 6½ inches high, 6½ inches wide, 23 inches long.
Price each \$3.00.

Model B. 8 inches high, 9½ inches wide, 29 inches long.
Price each \$4.00.

Model C. 8 inches high, 9½ inches wide, 35 inches long.
Price each \$4.50.

Model D. 8 inches high, 9½ inches wide, 41 inches long.
Price each \$5.00.

Above prices are not prepaid.

Flower Boxes

Bird Cages and Supplies

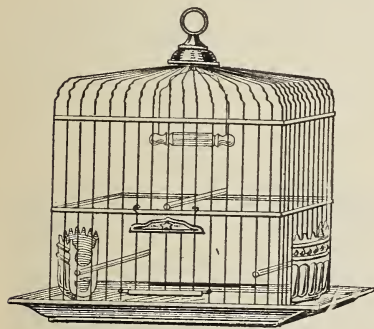

We carry a nice assortment of bird cages and can supply them in both the Japanned and Brass also in various shapes and sizes as follows:

Square Japanned cages in four sizes, painted white and trimmed with narrow green stripes at \$1.75, \$2.00, \$2.50 and \$3.00 each, not prepaid.

Another style which is a little longer than wide also comes painted white with green stripe, also pure white, six sizes, \$1.75, \$2.00, \$2.50, \$2.75, \$3.00 and \$3.25.

Above prices are not prepaid.

The next one is about the same except that it has a brass screen wire guard, cloth around it, which prevents the birds from scattering the seed out of the cage. Four sizes, \$3.50, \$3.75, \$4.00 and \$4.50 each.

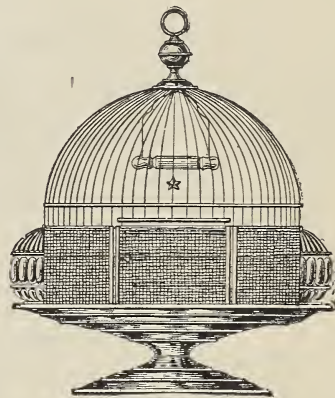

Bird Cages

The next one is a beautiful round Japanned cage with pedestal base and also has brass wire guard cloth to prevent them scattering seed. Finished in old ivory. Three sizes.

Price \$5.00, \$5.50 and \$6.50 each, not prepaid.

All bird cages come complete with food and water cups, perches and swings.

Another one which is exactly the same as above only that it is made entirely of brass and has inside removable tray for convenience in cleaning. Three sizes.

Price \$5.00, \$6.00 and \$7.00 each, not prepaid.

Birds

While we do not keep birds in stock at all times we can nearly always supply good singers of the following kinds and at prices quoted. If you want an extra good singer the price will be a matter of correspondence.

Imported St. Andraesburg Trained Rollers.

\$10.00 to \$25.00 each.

AMERICAN GROWN SINGERS

\$7.00 to \$15.00 each. Guaranteed to sing.

There is no pet around the place which will afford more real pleasure than a sweet singing Canary.
